2. COUNCIL BUSINESS
A. Interviews – Economic Development Board Interviews
Community Development Director Darren Groth briefed Council on this agenda item. He noted, in 2012, City Council adopted Ordinance Number 12-0381, which established an Economic Development Advisory Board (EDAB). The EDAB was created to assist and advise City Council in connection with issues and programs involving economic policy, commercial business, land development policy, and business retention. The board is an advisory body with power to recommend policy to City Council.

In an effort to reestablish the EDAB, the City has accepted applications for membership for approximately the past six months. While 10 total applications were received by the City Clerk, two of the applications were from duplicative applicants; as a result, only eight individuals expressed interested in EDAB membership. Of the eight applicants, three withdrew as candidates. The five remaining candidates are here this evening to be interviewed. He introduced the candidates and Council asked the following questions:
1. CM West question – “The Economic Development title- what does it mean to you & what your view for Edgewood is”
2. CM Creley question – “Please give an example of what type of business Edgewood should have, or what is needed here”
3. CM Day question – “What do we as a community need that we don’t already have that prevents businesses from locating here so far”
4. DM Christopherson question – “How would you reach out to business to encourage them to come to Edgewood and be relevant to the changes of today”
5. CM Hunter question – “Council has discussed previously missed use residential business on top with retail below, what is your vision for our cities town center”
6. CM Tomyn question – “How would you describe our city to a stranger on a plane”
7. CM Lowry question – “Currently online sales continue to soar including even groceries now, while brick and mortar business continues to decline with some even closing their doors. Given Edgewood residents desire to see more retail offerings how would you propose to bridge this gap”
