Mr. Groth inquired about the Economic Development Advisory Board. He asked Council if they wanted to seat the board with the four current members.

Discussion followed between staff and the Council.
Council action: Council recommended staff move forward with sending out the Buxton letters, and seating the Economic Development Advisory Board as is, setting a time for them to meet in December, and then schedule a joint meeting between them and Council sometime in January. Mayor Eidinger noted to add the additional applicant on the next study session schedule for an interview to help fill one of the other vacant seats.

B. Review / Discussion – Perceived Density Code Amendments
Community Development Director Darren Groth briefed Council on this agenda item.
He explained the city currently allows for Residential Cluster Developments but does not extend to all of our zoning districts. He then detailed the changes made for the zoning districts and the community septic systems. He noted there is a public hearing scheduled for next week’s regular council meeting on November 13th to discuss this item further.
C. Review/Discussion – ADU Code Amendments
Community Development Director Darren Groth briefed Council on this agenda item. He noted the Planning Commission approved changes to the proposed code amendments regarding ADUs, and what it means to qualify as an ADU. The amendment clarifies to anyone doing a home remodel or expansion letting folks know when they cross the line from being an expansion to an ADU.
Council action: Council recommended staff move forward and Mr. Groth noted there would be a public hearing for this item at next week’s regular council meeting as well.

D. Review/Discussion – Sign Code Ordinance (Model Code to Planning Commission)
Community Development Director Darren Groth briefed Council on this agenda item.
Mr. Groth referred to the proposed model sign code, asking if Council could refer it to the Planning Commission to get it on their upcoming agenda. He then asked how Council would like to fill in the model code, with the easiest option being to pull forward relevant code sections from our current sign requirements, and plugging them in for the Planning Commission to review. He noted that way they can fill it in while identifying changes for future code amendments. He noted the other more time consuming option, would be to have the Planning Commission review several details such as height and setbacks.
Council action: Council recommended staff to bring the model code to Planning Commission regarding the Sign Code and to use the current standard to move forward to become legal as soon as possible.

He explained there would be an open public budget meeting at the next regular council meeting where the public could come forward with any questions or concerns regarding the preliminary budget.

H. Review / Discussion – Carrera Holdings Segregation
Asst. City Administrator Dave Gray briefed Council on this agenda item and explained the Arbors property was originally two large properties that were sold to Carrera Holdings. The lot line adjustment was completed, but it did not take care of the LID, he noted if folks were to look at the two title reports, it shows both parcels owe the entire LID, which is not the case.
He stated the segregation would fix that and put them all on the same LID payment schedule.
Council action: Council recommended staff to place this item on the consent agenda at next week’s regular council meeting.

I. Discussion – Hiring Process
Councilmember Creley clarified he meant no disparagement or negativity towards staff. He further explained that his concerns were that personal recruitment had a potential to look like “The Good ol’ Boy Club.”
He noted concerns were that it could be used in the future to hire friends, as opposed to the most qualified person for the position, and since it’s part of a hiring policy and Council is the policy makers, he would like there to be consideration on changing that portion of it.
Councilmember Day agreed stating it isn’t a matter of impropriety, but more about how it may appear to those on the outside. He suggested removing the portion of the policy about internal referrals, or rewording it so the city can still get the quality of candidates needed, while protecting the interests of the city.
Councilmember Tomyn agreed stating internal referrals should just be included with the public candidates.
Councilmember Lowry inquired as to the cost involved in interviewing multiple candidates, when we already have a favorable candidate in mind.
Mayor Eidinger touched on the staff time that goes in to panel interviews, the cost of having several staff members set aside several hours to interview multiple candidates.
Councilmember Hunter requested staff be more transparent in the hiring process. She explained bringing a position forward for Council to review, and give input on, and then forgetting to tell them you already had a person in mind, created a disconnect.
City Attorney Morris noted she spoke with two individuals involved in the hiring process at the City of Seattle and the Seattle Housing Authority and both stated they post their positions publicly, and review from that pool of candidates.
Discussion followed between staff and Council.
