Situations involving official legal or administrative action affecting the City will be reviewed by the City Council with advice from the City Attorney to determine whether an emergency exists warranting an emergency Comprehensive Plan Amendment. Except as otherwise provided in RCW 36.70A.130(2)(a), all Comprehensive Plan Amendments shall be considered concurrently so that the cumulative effect of the various proposals may be ascertained.

D. **Deadline for Application Submittal.** All applications for Comprehensive Plan Amendments shall be submitted to the Planning Director by December 31st of the current calendar year (or be included in the Director’s docket of suggested amendments by this date) in order to be considered during the following year’s amendment process; except that City-sponsored proposals to amend the Capital Facilities Element of the Comprehensive Plan may be accepted later than other proposed amendments because of their relationship to the City’s annual budget process. B. **Planning Director Responsibilities.** After compiling the preliminary docket, the Planning Director shall review the suggested amendments and prepare a report concerning which suggested amendments that the Planning Director believes should be placed on the final docket for consideration during the annual amendment process. In addition to addressing the need, urgency and appropriateness of each suggested amendment, the staff report shall include, but not be limited to, a consideration of the following:

Notice of the Planning Commission’s hearing shall be given as set forth in Section 18.60.070.

18.60.170 **City Council Decision – Adoption of Final Docket.** The City Council shall review and consider the Planning Commission’s report and recommended final docket at a regularly scheduled Council meeting. As appropriate, the Planning Director shall solicit comments regarding the proposed amendments from the public and/or government agencies. The Planning Director shall also be responsible for providing notice and opportunity for public comment as deemed appropriate, given the nature of the proposed amendments and consistent with RCW 36.70A.140. and SEPA (chapter 43.21C RCW and chapter 197-11 WAC). Issuance of the SEPA threshold decision on the proposed Comprehensive Plan Amendments shall be coordinated such that if an appeal of the SEPA threshold decision is filed, the appeal shall be heard by the City Council.

Introduction

The City of Edgewood plans our Community consistent with the Growth Management Act and as such has developed this handbook to help the Public understand and get involved with the planning process in Edgewood.

The comprehensive plan development and amendment process, as well as the development and amendment of implementation regulations should be a "bottom up" effort, involving early and continuous public participation. The City's methods and basic framework for achieving an interactive dialogue between local decision-makers, City staff, and the public will be formed through this handbook and will apply throughout the local planning process leading to adoption of the comprehensive plan, development regulations to implement the plan, and legislative amendments to both.

The City's Community Development Department will oversee the public involvement in the local GMA planning process, but it is the City Council that decides on the direction and content of policy documents or regulations that they find to be in the community's best interest. The text that follows is intended to guide and form the basis for public participation programs related to GMA and the City's local planning process.

This pamphlet is broken into the following sections:

1. Communication and Information
2. Availability of Proposals and Alternatives
3. Public Meetings, Workshops & Hearings
4. Opportunity for Open Discussion
5. Opportunity for Written Comments
6. Consideration of and Response to Public Comment

*RCW 36.70A.140, states that “... errors in exact compliance with the established program and procedures shall not render the comprehensive land use plan or development regulations invalid if the spirit of the program and procedures is observed.”

1. Communication and Information

The City will develop, implement and maintain communication programs and information services for the purpose of involving the broadest cross-section of the community in the planning process. To ensure the overall success of the GMA planning process, there are several things that must occur:

- The public should understand the basic concepts of the GMA, local planning and how their own participation can affect local plans and regulations.
- The public needs to know how and when to get involved.
- The public needs to understand how their input is used.

The City will inform the public through various techniques including but not limited to, the following:

- Prepare and make available through the City’s website, at City Hall, and at public workshops and hearings, this Public Participation Program Handbook and EMC 18.40.190 and EMC 18.60 (on the subject of comprehensive plan and legislative development regulation adoption/amendment), notices to the public meetings and public hearings regarding comprehensive plan development and amendment process, application forms for amendments to the comprehensive plan and development regulations, etc.; Notice procedures should be reasonably calculated to provide notice to property owners and other affected and interested individuals, government agencies, businesses and organizations.
- Design, display and distribute other printed and visual material as needed to inform the public about the local planning process and engage them in relevant discussion;
- Provide public legal notices for upcoming special workshops and hearings in our official City newspaper, and through the City’s website site, at least 10 days prior to the meeting/hearing date; and
  - Regular meetings - Post agendas on the City’s website at least 5 working days prior to the meeting.
  - Special meetings – Post agendas for special meetings on the City’s website, at City Hall, and at the Community Center, as required by RCW 42.30.080 (min. 48 hours in advance)

The list should be used for mailing of public notices as appropriate, or emails to those who have signed up for email notification.

The City will maintain documents so that they are readily available to distribute in a timely manner to all who want to review them. Documents that contain or describe proposed plans, policies, maps, regulations, or the amendment of those, as well as supporting documents such as reports, analysis, recommendations, or environmental reviews should be easily accessible. - **Posting** the property for site-specific purposes;
- **Notifying** public or private groups with known interest in certain proposals or in the type of proposal being considered;
- **Placing** notices in appropriate regional, neighborhood, ethnic, or trade journals; and
- **Publishing** notice in agency newsletters or sending notice to agency mailing lists, including general lists or lists for specific proposals or subject areas.

6. Consideration of and Response to Public Comments

The City will consider relevant public comments and public testimony in the decision-making process. Various methods for informing and involving the public, providing public notice of proposals, and soliciting public opinion or comments have been established above. Many of those represent the initial steps for bringing public comments into the decision-making process. Other guidelines set the stage for decision-makers to consider those comments. (For example, tape recording meetings or hearings and soliciting written comments allow decision-makers the opportunity to review and consider relevant information in detail before a decision is actually made.)

Additional steps will be taken so that comments and recommendations from the public are reviewed by the decision-makers for relevancy. Those would include the following:

- **Time** should be reserved subsequent to the close of a hearing or comment deadline and prior to an actual decision so that the decision maker(s) can adequately review all relevant material or comments. Reconvening a hearing for the purpose of addressing comments is an option that the decision maker(s) may use on a case-by-case basis;
- **Substantive** comments pertaining to studies, analyses, or reports, along with necessary responses, should be included in the published document itself (such as occurs in the SEPA process of developing a Draft Environmental Impact Statement (EIS) and then a Final EIS with comments and responses);
- **The record** (such as tape recordings, written comments or testimony, documents, summaries, etc.) will be compiled and maintained by the City. That record will be made available to the decision maker(s) for their consideration and review prior to a decision. Relevant comments or testimony should be addressed through the findings-of-fact portion of the decision maker’s written decision or recommendation.
5. Opportunity for Written Comments

The City will encourage submission of written comments or written testimony throughout the planning process. In many instances, detailed, technical, or personal comments can be best expressed and understood in written format. The following steps should be taken to encourage written comments:

- **As appropriate**, notices for meetings, workshops, and hearings should include the name and address of the person(s) to whom written comments should be sent, along with the deadline for submitting comments;

- **Persons** speaking or testifying should be encouraged to concisely express their comments verbally and provide specific details in written format;

- **The deadline** for submitting written comments, if allowed subsequent to a meeting or hearing, should be clearly announced by the facilitator or chair;

- **Comment** sheets for written public input should be available at all workshops with the deadline for submitting the completed sheets to City Hall noted;

- **Innovative** techniques, as appropriate to a specific planning task, should be developed and implemented to solicit and document the public’s concerns, suggestions, or visions for the community. Techniques may include, but are not limited to, surveys, interactive displays, or the innovative use of electronic communication technologies.

3. Public Meetings, Workshops, and Hearings

The City will provide public notice of public workshops and hearings to ensure that the community is made aware of the opportunities to become involved in the planning process. At a minimum, the requirements of Chapter 35A.63 RCW, Chapter 3670A RCW, Chapter 43.21C RCW and Ordinance No 17-XXXX (pertaining to public hearings and notification), will always be met. However, the City may go beyond the legal minimums to ensure the public is aware of meetings or hearings and of their opportunity to be involved in local planning efforts.

**Public meetings, workshops, open houses, and design forums** are opportunities for open discussion between the public, staff and decision-makers that do not normally involve public testimony.

- As appropriate, given the specific proposal public workshops should be hosted prior to public hearing(s) as a means to involve and educate the public and solicit their opinions, reactions, or suggestions. The number of workshops should be based on the specific circumstances of the case;

**Public hearings** are more formalized, legal proceedings, where public testimony is presented to a decision-maker for consideration. The result of a public hearing generally consists of an official recommendation in the case of the Planning Commission or a legislative decision by the City Council.

- At least one public hearing will be conducted prior to making either a recommendation or an official decision on a comprehensive plan, a development regulation implementing the plan, or an amendment to either;

**The public** shall also have the opportunity to attend regular or special meetings to observe and aid in discussion topics before the Council and its various boards and commissions.

**Working subgroup meetings** may deviate from the above techniques due to the unique circumstances associated with their function. These include the rapid, high volume, recurring meetings of technical committees, subcommittees, or work groups which focus their efforts on specific issues or limited supporting tasks (as opposed to meetings of a quorum of the Planning Commission or City Council in which they consider complete draft plans, regulations, or amendment proposals meant to result in a formal recommendation or official decision.)
4. Opportunity for Open Discussion

The City will ensure that public meetings allow for an open discussion of the relevant issues and that hearings allow for appropriate public testimony. When public meetings, workshops, or hearings are conducted, the City will ensure that those who choose to participate in the planning process have the opportunity to take part and have their opinions heard. To ensure participation opportunities, the following actions will be implemented:

- **Establish** an agenda that clearly defines the purpose of the meeting or hearing, the items to be considered, and actions that may be taken. If available early, the agenda should be included or summarized in the notice(s);

- **The scheduled** date, time, and place should be convenient so as to encourage the greatest number of people to attend;

- **A Clearly** identifiable facilitator or chair will conduct the meeting or hearing in an orderly fashion to ensure that all attendees have an opportunity to discuss issues, offer comments, or provide testimony;

- **The facilitator** or chair should provide introductory remarks outlining the purpose of the meeting or hearing and describing how the attendees can best participate and how their input may be used;

- **As appropriate**, City staff may provide a brief overview of any documents or proposals to be considered;

- **All persons** desiring to participate should be allowed to do so. However, specific factors, such as the purpose of the meeting, size of attendance, time factors, or other opportunities to participate, may suggest some appropriate constraints to be applied. Rules of order for the meeting or hearing should be set forth clearly by the chair or facilitator.

- **All attendees** will be encouraged to identify themselves on a sign-in sheet;

- **All meetings** and hearings should be recorded;

- **Written** findings, decisions, and minutes should be prepared and available as soon as possible following a hearing;

- **Special arrangements** for meetings or hearings will be made under the provisions of the Americans with Disabilities Act (ADA) with advance notice;

- **If the City Council** chooses to consider a change to an amendment to the comprehensive plan or development regulation, and the change proposed after the opportunity for review and comment has passed under the City’s procedures, an opportunity for public review and comments on the proposed change shall be provided before the City Council votes on the proposed change (per RC 36.70A.035(2)); and

- **As set forth in RCW 36.70A.035(2)(b),** an additional opportunity for public review and comment is not required if:
  - An environmental impact statement has been prepared under Chapter 43.21C RCW for the pending resolution or ordinance and the proposed change is within the range of alternatives considered in the environmental impact statement;
  - The proposed change is within the scope of the alternatives available for public comment;
  - The proposed change only corrects typographical errors, corrects cross-references, makes address or name changes, or clarifies language of a proposed ordinance or resolution without changing its effect;
  - The proposed change is to a resolution or ordinance making a capital budget decision as provided in RCW 36.70A.120; or
  - The proposed change is to a resolution or ordinance enacting a moratorium or interim control adopted under RCW 36.70A.390.
