PUBLIC COMMENT
The Committee welcomes public comment. We appreciate your attendance and look forward to hearing any concerns you may have. We request that the following rules of procedure be followed: At the beginning and at the end of each Committee meeting, there is time to receive public comment from the audience. If you wish to address the Committee, we ask that you stand, give your name and present your concern. If you wish to speak while the Committee is addressing a specific issue, you are asked to make arrangements ahead of time with the Committee Chairperson. No comments or questions will be taken at any other time.

If you should require special assistance in order to attend the meeting, please notify the County Coordinator at (231) 832-6196, twenty-four (24) hours before the posted meeting time, for arrangements to be made.
OSCEOLA COUNTY
COMMITTEE OF THE WHOLE
MINUTES
MARCH 5, 2019

The Committee meeting was called to order at 9:31 a.m. by Chairman Nehmer.

Present: Commissioners Jack Nehmer, Jill Halladay, Tim Michell, James Custer, and Mark Gregory.

Also present: Susan Vander Pol-County Coordinator, Tracey Cochran- Payroll / Human Resource Specialist and several members of the public.

Motion by Commissioner Gregory, seconded by Commissioner Michell, to approve the agenda as amended. Motion carried.

Brief Public Comment: None.

Employee/Board Comment: None.

Moved by Commissioner Gregory, seconded by Commissioner Halladay, to approve the minutes of February 19, 2019 as presented. Motion carried.

Recommended by Commissioner Halladay, seconded by Commissioner Custer, to approve the claims in the amount of $71,283.26 for the County. Recommendation was unanimously supported.

Brooks Security & Electronics Proposal
Brad Halladay, Maintenance Supervisor, and Dan Joyce from Brooks Security spoke to the Board about updating the panic buttons throughout the various buildings as the current panic buttons are out dated due to the recent upgrade to the Jive network. Commissioner Halladay suggested adding the C.O.A buildings in Tustin and Marion. Discussion was held.

Recommended by Commissioner Gregory, seconded by Commissioner Michell, to approve the Brooks Security proposal in the amount of $13,292.50 and authorize Susan Vander Pol, County Coordinator, to approve the additional expense of installing panic buttons at the C.O.A Tustin and Marion sites. Recommendation was unanimously supported.

Clerk's File Safe, Inc. Proposal
Karen Bluhm, County Clerk, asked Commissioners to approve the proposal from File Safe, Inc. for circuit court files that are currently stored in the basement. Karen asked the Board for direction on sending additional files for an increased cost of $.25 per box. Discussion was held.

Recommended by Commissioner Gregory, seconded by Commissioner Michell, to approve the proposal from File Safe, Inc. in the amount of $2,410.00 and the additional cost of sending additional boxes at $.25 per box. Recommendation was unanimously supported.

Building Official/Inspector Agreement
Commissioner Gregory updated the Board on the revised Building Official/ Inspector Agreement between Osceola County and Anthony Gagliardo. Discussion was held.

Recommended by Commissioner Gregory, seconded by Commissioner Michell, to approve the agreement between Osceola County and Anthony Gagliardo. Recommendation was unanimously supported.

Budget Amendments & Cash Transfers
Commissioner Halladay presented the budget amendment and cash transfer for approval.
Recommended by Commissioner Halladay, seconded by Commissioner Gregory, to approve the budget amendment and cash transfer as presented. Recommendation was unanimously supported.

C.O.A.
Commissioner Halladay spoke regarding several documents relating to previous employee, Scott Schryer. Commissioner Halladay also spoke about the current Personnel Policy and how they needed to be updated and reviewed. Discussion was held. Scott Schryer was also allowed to participate in some of the discussion.

Recommended by Commissioner Halladay, seconded by Commissioner Custer, to reinstate Scott Schryer as the Commission on Aging Director. Roll call vote taken on the reinstatement of Scott Schryer as the Commission on Aging Director. Voting No: Commissioners Michell, Gregory and Nehmer. Voting Yes: Commissioners Halladay and Custer. Recommendation failed.

POAM Union Contract and Pay Scale
James Houghton, Corrections Officer, spoke to the Board regarding the verbiage used in the current POAM Union Contract regarding the new pay scale. The new pay scale includes an additional step (Step 7) that was not included in previous contracts. Discussion was held on when a corrections officer would receive an increase to Step 7. James asked the Board to consider approving two correction officers up to Step 7 prior to the employee’s anniversary date. No motion made by Commissioners.

Coordinator Lease of Ricoh Copier
Susan Vander Pol, County Coordinator, spoke to the Board about a proposal from Ricoh to lease a new copier for the Coordinators Office. Susan spoke about the cost of leasing a copier versus purchasing a new copier. Discussion was held.

Recommended by Commissioner Michell, seconded by Commissioner Custer, to approve the County Coordinator to lease a new copier from Ricoh. Recommendation was unanimously supported.

Employee/Board Comments: Sheriff Justin Halladay spoke about the new POAM Union Contract with the addition of the Step 7 payscale. Sheriff Halladay asked the Board to consider doing a letter of understanding.

Karen Bluhm, County Clerk, addressed the Board concerning how the Board allows the public to speak freely during Board meetings. Karen suggested bringing in a local Parliamentarian to speak to the Board.

Extended Public Comment: Scott Schjryer, McBain, Michigan, spoke about his dismissal from Commission on Aging.

Moved by Commissioner Gregory, seconded by Commissioner Custer, to adjourn at 11:34 a.m. Motion carried unanimously.

Karen J. Bluhm, County Clerk
Jack Nehmer, Chairman

RE: Osceola County
   Emergency Medical Services Department
   Meeting/Training Room
   Reed City, MI

Landmark has enjoyed working with Osceola County on the study of renovation options for the Reed City EMS. Our findings were submitted in a December 5, 2018 report and presented to the County Board on December 18, 2018. The County has selected, as the first phase, the conversion of the Health Department Building Suite B into an EMS Training room. The preliminary floor plan, labeled Option Two, was included in the December 5, 2018 report. This proposal is to complete the design and prepare detailed drawings which will be signed and sealed for building permits. As stated in the RFP, the County will provide all services during the contractor bidding and construction phases.

Project Team

Landmark Design Group, P.C – Project Architect

Landmark Design Group, P.C. is a registered Michigan corporation founded in 1973. Robert Van Putten, a licensed Michigan architect, joined the firm in 1982 and became president in 1986. The core strength of Landmark is providing quality architectural and engineering services to Michigan public sector clients. We have completed over 50 Michigan County building projects (three with Osceola County) and over 30 State of Michigan projects. This public sector work experience ranges from courthouses, jails, central dispatch centers, EMS buildings, State police posts and prison projects. We have found our public sector projects require cost effective design and construction, durability and attention to both operational and construction cost.

Landmark Design Group, P.C. is located at P. O Box 888286, Grand Rapids, Michigan 49588, email bob@landmark.us.com.

Key Staff members include:

Bob Van Putten will be the project architect and the primary contact individual from project start to finish. He is a licensed Michigan architect with 37 years of experience. He will be the person responsible to Osceola County for contracting services.
Steve Jara will be the project manager. Mr. Jara has been with Landmark for over 30 years. He has extensive County building work experience. Mr. Jara will be involved in completing the building renovation design and drawings.

Joan Van Putten will be the project interior designer. She has over 30 years of County building design experience. She will review the existing building finishes and specify new durable finishes for the training room.

The Landmark team also includes the engineering firm Morgan Landon, LLC. Morgan will prepare the HVAC, electrical power/data, lighting, plumbing and security design and drawings. The majority of our County projects were completed utilizing this team.

Morgan M. Landon, LLC – Mechanical / Electrical / Security Engineer

The Morgan M. Landon firm was formed in 2005 and is a Michigan corporation. The owner of the firm, Morgan Landon, is a licensed engineer and has over 40 years of engineering experience. Mr. Landon will oversee all aspects of the mechanical and electrical systems. He will inspect the existing building and assess the condition and suitability of the existing building mechanical, electrical and security systems.

The firm is located at 2054 Brandon Drive NW, Grand Rapids, MI 49504. (616) 608-3372. morgan@mlandon.com
Fee Proposal

The fee for our architectural and engineering services for sealed construction plans is a lump sum of $5,500.00 (Five Thousand Five Hundred Dollars). The fee includes all travel, food and long distance communication cost. Reimbursable expenses are limited to printing and mailing cost of plans and specifications. The fee will be invoiced monthly as our work is completed. Please note that, as stated in the Osceola County RFP, contractor bidding and construction administration services will be provided by the County. Landmark is available as needed during these phases and will request an hourly rate of $75.00 per hour.

If this proposal is acceptable, we will prepare a Standard American Institute of Architects (AIA) contract for your review.

Landmark appreciates the opportunity to assist Osceola County with the project. If you have any questions, please do not hesitate to contact me at (616) 260-9676 or email bob@landmark.us.com.

Sincerely,

LANDMARK DESIGN GROUP, P.C.

Re: RFP for EMS Architectural and Engineering Services

Dear Ms. Vander Pol,

Enclosed herewith please find our proposal for your consideration as you solicit professional services for the preparation and development of documents of a meeting/training rooms for the Emergency Medical Services Department in Reed City.

We are excited to offer a team of experts that includes highly qualified professionals in each of their respective fields. Mechanical and Electrical Engineering services will be provided through Clark Trombly Randers, who bring extensive experience in designing systems for meeting and training rooms types of spaces.

We have successfully completed similar projects of varying size and use throughout the state of Michigan. These projects are not only in the field of civic and government but can be found in commercial, healthcare, higher education, K-12 and numerous other areas.

Below is our understanding of the project and scope of services that are included in our proposal.

SCOPe OF SERVICES

PROJECT UNDERSTANDING

• Development of a meeting/training room for the Emergency Medical Services Department in Reed City of Osceola County;
• The renovated space will utilize 1,000 square feet of existing partially finished space located at 22054 Professional Drive, Suite B, Reed City, MI 49677;
• The area layout will be per the plan provided in the RFP;
• Review life-safety, barrier-free, and egress requirements;
• New doors separating Suite “A” from Suite “B” will be required;
• The new large training room will incorporate a new folding partition;
• New finishes will be required in Suite “B”, including flooring, wall finishes and ceilings;
• There is an existing dedicated HVAC unit installed that will serve the area;
• The proposed area has an existing separate entrance and access to the use of existing restroom facilities.
• No project budget has been provided;
• Upon execution of a contract, final construction documents must be completed within 90 days.
  • WTA anticipates the use of an AIA B105 - 2017 Standard Short Form of Agreement Between Owner and Architect.
  • Osceola County will act as its own project manager for the construction phase of the project. No bidding or construction administration services are required of the design team.

**SCOPE OF SERVICES**

**(DP) DESIGN PHASE**

• Attend kick-off meeting with Owner to review program requirements.
  • Review and consult with Owner on project goals and requirements.
  • Perform field verification of existing building dimensions and construction, as necessary for design and documents.
  • Meet with User groups and facility staff as necessary to identify space needs and develop space program requirements.
• Provide building code and life-safety review and recommendations.
• Develop design drawings and documents.
• Attend one (1) meeting with Owner to review design documents.
• Provide complete project Technical Specifications for Architectural, Mechanical, and Electrical systems.
  • Project specifications will be provided on the drawings. No Project Manual will be provided.
• Provide preliminary construction document package for Owner review and comment prior to bid.
• Pick up any final comments from Owner on construction documents and provide final construction documents to Owner for bidding.

**(B) BIDDING**

**Bidding services have been excluded from this proposal**, but can be provided at any level on and hourly basis. Below is a list of our typical Bidding services:

• Issue documents to Construction Manager for bidding.
• Answer bidding questions as required.
• Attend one (1) pre-bid walk through meeting.
• Provide evaluation and recommendations for bid results.

**(CA) CONSTRUCTION ADMINISTRATION**

**Construction Administration services have been excluded from this proposal**, but can be provided at any level on and hourly basis. Below is a list of our typical CA services:

• Shop drawing review of all project submittals.
• Review Contractor payment request based upon work completed.
• Provide site observation of construction and attend construction progress meetings.
• Provide final punch list for each area.
• Provide project close-out and record documents.
SPECIAL CONDITIONS

- WTA has not included any work to areas beyond that identified in the attached floor plan.
- WTA has not included furniture or equipment design.
- WTA has not included design of security, audio-visual, or voice/data network systems; WTA will coordinate with the Owner as required to incorporate system requirements into documents.
- WTA does not anticipate the need for 3D renderings or modeling to adequately communicate the design and has therefore not included these services.
- WTA has not included construction permit, testing, or inspection fees.
- WTA anticipates bidding documents will be distributed electronically and has not included cost for hard copy bid document reproduction or distribution.
- WTA has not included preparation of Owner-Contractor agreements.
- WTA has not included LEED design, documentation, or certification fees.

We look forward to the possibility of working with Osceola County and thank you for considering WTA ARCHITECTS.

Sincerely,

WTA ARCHITECTS

PAUL ANDREW HASELHUHN, AIA PARTNER

PAH/rk
Firm Profile

Wigen Tincknell Associates (WTA) Architects is a Michigan Corporation founded in Saginaw in 1947 and incorporated in 1963. WTA has been continually providing architectural services for over 71 years to communities throughout the state of Michigan. Our commitment to our clients is key to the success of each project.

WTA offers expertise in the planning and design of facilities - both small and large scale - that is unmatched in the region. We are experts in working with existing structures whether they are historically significant or of more recent eras. WTA provides complete architectural and planning services - every aspect in building evaluation, space planning and design. We develop designs, provide complete construction documents, oversee the bidding process and follow construction through completion and move-in.

Principals of the firm:

- Kurt R. Fogelsonger, AIA, LEED AP, President
- Kenneth C. Lemiesz, AIA, Principal
- Paul A. Haselhuhn, AIA, LEED AP BD+C, Principal

Our staff is comprised of 21 professionals with varying specialties that include:

- 8 - Registered Architects and Designers
- 1 - Intern Architect
- 4 - Architectural Technicians
- 2 - Interior Designers
- 2 - Construction Administrator
- 4 - Administrative

In 2016, AIA Michigan selected WTA ARCHITECTS as the Architectural Firm of the Year.
Relevant Experience

WTA ARCHITECTS has worked for governmental entities since the inception of the company. We have completed projects for township, city, county, state and federal agencies. Our services include, but are not limited to the following types of work:

- Facility Analysis
- Space Programming
- Health Departments
- Human Services Facilities
- Medical Care Facilities
- Courthouses: New, Renovated and Historic
- Office Buildings
- Jail Additions and Renovations

The following are a list of counties and state projects WTA ARCHITECTS has provided services for:

**COUNTY**

Please find additional information of relevant projects on the following pages.
WTA ARCHITECTS has been working with the educational and healthcare industries for decades, developing spaces that fit our clients' needs from simple to complex.

Classrooms and Training Rooms are developed based around each client's requirements. Many times the needs are simple and straightforward, requiring a more static layout. Other times the parameters are more complex, requiring the development of spaces that are more multi-use.

Spaces designed for larger groups or small groups all have unique needs, whether designed for education or collaboration, and must be designed to be user friendly and adaptable to the groups or individuals using them.

Seamless integration of technology for education and training is critical. These features must be straightforward and simple to use by diverse groups. Lighting and controls are also critical which will provide increased flexibility for how the space can be successfully used.
Healthcare industry design requires a specific knowledge set. Over the years WTA has designed both spaces for healthcare education and healthcare itself.

Healthcare Education is about designing spaces to simulate that of the real world environment. Additional features must be provided to support the training and education of the students.

WTA has designed healthcare facilities ranging from emergency departments to surgical suites, physical therapy spaces to both mobile and fixed MRI spaces.

We also focus on Evidence Based Design in healthcare. This is critical to our team as we plan improvements for existing spaced and new layouts.

Jacob Sabins, PE, LEED AP  
Principal, Sr Mechanical Engineer

Jacob joined CTR in November 2014 as a senior mechanical engineer and Principal after serving eight years with MSU Infrastructure Planning and Facilities organization. Jacob's primary areas of expertise are plumbing and HVAC systems for a variety of building types, notably office and institutional buildings. As a mechanical engineer and project manager at MSU, Jacob has worked on projects of varying size and complexity, from renovation to the Hannah Administration Building to managing and $85 million chiller plant replacement. As Project Manager and/or Lead Mechanical Engineer, Jacob has been responsible for engineering, document production and quality control for the following representative renovation projects:

Representative Projects

**First Presbyterian Church** | Mason, MI  
- Major renovations in 100+ year old church including plumbing and HVAC for ventilation

**Michigan State University** | as mechanical engineer  
- VanHoosen Hall Boiler Replacement  
- IPF Offices Renovation  
- Spartan Stadium Office Renovations  
- Physical Plant Building Room Renovations

**Michigan State University** | as project manager  
- Food Stores - Equipment Replacement  
- Library Chiller Plant Replacement  
- Plant Biology Exhaust System Replacement  
- Hannah Building Ground and First Floor Renovations  
- Wilson Hall - Creative Commons Renovation  
- Replacement of existing HVAC equipment

**Sparrow Hospital** | Lansing, MI  
- Medical Arts Building - HVAC Upgrades  
- SMG Eastside  
- Health Science Pavilion - Bariatric Management Renovations  
- Sparrow Professional Building - OB (Suite 345) Renovations  
- Michigan Athletic Club - Locker Room Renovations

Robin Hyman, PE
Principal, Sr Electrical Engineer

Robin's experience lies primarily in large electrical systems. He has led teams for various size projects ranging from an office suite addition to a replacement hospital. Robin is experienced with complex projects and in the design/selection of power systems for secure and hazardous environments, energy conservation and emergency standby generator systems. He has special expertise in secure facilities design and has worked on projects that have involved state of the art communications, emergency power and flexible distribution systems. He has the following representative projects to his credit:

Representative Projects

**Birmingham Country Club | Birmingham, MI**
- Electrical Engineer in charge of design for club renovations to restaurant and social spaces.

**State of Michigan - Romney Building | Lansing, MI**
- Electrical Engineer in charge of design for break room renovation, including modifications to HVAC system power.

**State of Michigan - Hannah and Ottawa Buildings | Lansing, MI**
- Electrical Engineer in charge of building-wide restroom renovations, including lighting and power revisions.

**Rainbow Child Care Centers | Various locations**
- Electrical Engineer in charge of design for child care center prototype and subsequent site specific applications.

**South Quad Fire Alarm Project | Central Michigan University**
- Lead Electrical Engineer for a fire alarm replacement/addition project in a four building residence hall complex and dining commons.

**Lansing Board of Water and Light - Haco Road Project | Lansing, MI**
- Electrical Engineer in charge of design for 50,000 s.f. building renovation, including power, lighting and building systems.

**Sparrow Medical Center | Lansing, MI**
- Project Manager for all Sparrow Medical Center work, including:
  - **Sparrow Medical Arts Building** - Lead Electrical Engineer for the renovation of the 45,000 s.f. medical office building.
  - **Hagadorn IT Renovation** - Lead Electrical Engineer for the renovation of a spec office space to serve as the IT data center for Sparrow Hospital System.

<td>TO:</td>
<td>267</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

COMMENTS:

The above transfer has been appropriated by the Board of Commissioners by previous resolution and may be less than the full amount appropriated in the source fund. The appropriating action was by:

( ) Appropriation Act  
( ) Budget Resolution  
(×) Transfer Resolution

The County Treasurer is to complete the transfer within three business days following the date of this authorization order. A copy of the executed transfer is to be issued to the County Clerk. Should the County Treasurer be unable to complete the transfer, in whole or in part, within the time prescribed, a statement will be sent to the authorizing party within the same time limit, giving reason why the transfer can not be completed.

(×) By direction of the Board  
( ) By direction of the Finance Committee

The Dangers of Evaluating Ecological Issues on a Political Timeframe

By Jeff Morton

Less than two years after the National Fire Plan was devised, policy-makers are getting nervous. The severity and high media profile of the wildfires of 2002 have unsettled our elected officials and led many to want to lend a sense of control to wildland fires. In July, the USDA Forest Service released a report that provided a tangible, addressable scapegoat. The culprit, according to the Forest Service report, is the National Environmental Policy Act (NEPA) administrative appeals process. The report concluded that appeals are delaying fuels reduction projects.

In its attempt to explain why the fire plan has not been more effective, the Forest Service has strayed from the focus of the fire plan itself. First, the Forest Service report made general conclusions about fuel reduction projects despite analyzing only mechanical treatments. Mechanical treatments, however, account for only 15% of all fuel reduction projects implemented by the agency. Mechanical treatments of hazardous fuels are clearly neither reflective of all fuel reduction efforts, nor do they embody the intent of the fire plan to reduce fuels via prescribed burns and forest thinning. Second, 78% of the appealed projects in the report were timber sales. Timber sales cut trees based upon their economic value; these harvests, therefore, target large-diameter trees. The fire plan, in contrast, focuses on small diameter trees to attain its primary goals.

Despite the Forest Service’s incompatibility with fire plan strategies, the Bush administration and subsequently Congress have used the report’s results as a basis for suggesting forest management changes. President Bush’s “Healthy Forests Initiative” cites that “procedural delays are stalling critical forest projects” and asserts that NEPA needs to be streamlined in order to implement “core components of the National Fire Plan’s 10-year Comprehensive Strategy and Implementation Plan” (Whitehouse, 2002). Some members of Congress have followed suit by promoting appropriations riders that seek to reduce the scope of the NEPA process in order to implement the National Fire Plan more quickly.

Like the Forest Service’s report, the Healthy Forests Initiative and Congressional legislation that would limit NEPA have strayed from the goals of the fire plan in an attempt to make the plan more efficient. The National Fire Plan is very explicit in its five primary goals. One of these goals instructs the agencies to work directly with communities and to incorporate and expand community participation in fuels reduction projects. While certainly not the only venue for public involvement, the NEPA process is the only legally-enforceable mechanism guaranteeing citizen participation.

A second of the five fire plan goals reminds the federal agencies of their need for accountability. In this context, accountability is to Congress and the public at-large. Once again, NEPA is the sole regulatory process that renders federal land management agencies directly accountable to the American people. Community participation and accountability are two of the five elemental goals of the National Fire Plan. Initiatives that seek to compromise these two goals in order to expedite accomplishment of a third goal, fuels reductions, will only undermine the ultimate aim of the fire plan: to foster a fire-adapted society.

The National Fire Plan not only outlines strategies to reduce catastrophic fires in the near future, it also addresses some of the root causes behind the fires. The plan seeks to facilitate comprehensive changes that will reduce long-term catastrophic fire risk while preparing and adjusting our society to accept fire as a natural process of continued on page three
Osceola County is located in the west central portion of Michigan's lower peninsula. Ours is a rural county with a population of 23,000 people. Within our county are many small lakes, rivers and streams. Portions of both the Manistee River and the Muskegon River watersheds are found here; both flow into Lake Michigan.

19,000 acres of state forest is found within the center of our county. Dairy farms are scattered throughout the county; agriculture is a very important component of our community. Beautiful scenery is bountiful. Wildlife is plentiful, especially the Whitetail Deer. We are a county of hunters—even our high schools close for the first day of deer hunting season.

Our county is a wonderful place to visit and live as witnessed by the ever-increasing second homes and retirees who are moving here. Industry has noticed us too as they establish plants here, especially in the vicinity of our two small cities.

Although we have many assets, we also have many problems. Our entire county obtains drinking water from deep aquifers. Several industries have established here because of the plentiful supply of clear, ice cold water. However, 49 ground-water sites have been identified as being contaminated, some with very toxic chemicals. These are mainly from industry, oil and gas well development, and old, closed landfills.

Within our county is a wealth of creeks, streams and rivers. In the recent past, water quality was so high that many waterways supported Arctic Grayling and a rich population of Brook Trout. Through logging, oil exploration and ignorance, our waterways have become a bed of sedimentation, void of aquatic life.

Because of lack of regulation, Osceola County is one of six in the state that contains 75% of stored scrap tires (about 15,000,000). We have also become the dumping ground for old, uninhabitable mobile homes. Not only does this affect our quality of life, it is detrimental to our efforts at economic development. We have no county zoning; only half of our 16 townships are zoned.

Upon my taking office in 1993, our 9-member Board of Commissioners established an Environmental, Conservation and Solid Waste Committee, which is the only one of its kind in the state. Like many counties our size, there are no surplus finds. Yet through this committee, we began to address our problems.

Our county board mandated the purchase of recycled supplies and the recycling of our waste. We assisted voluntary county-wide recycling through a grant to Recycle Osceola County, a non-profit citizens group. We passed a resolution ordering the Building Inspector not to issue a permit until all requirements of the Erosion and Sedimentation Control Act were met.

Back then, a controversial landfill was operating. It caused the contamination of a large area of ground water. Besides having many violations of its license provisions, caravans of semi trucks from Ontario began dumping there. A public hearing was requested of the regulating state agency. Several days after the hearing, the landfill was ordered closed. To this day, we still don't know what was dumped there. Ground water remediation continues.

We were one of the first counties in Michigan to complete a mandated Solid Waste Plan.

Our board opposed initiatives by the state to eliminate local control over establishing landfills. We opposed a state initiative that would eliminate local control over the establishment of access roads and pipelines to and from oil and gas facilities. This was important to us because our county is one of the leading natural gas and oil producers in our state.

continued on page six
When local industries apply to the state to increase the amount of pollution they are allowed to emit, we request public notification and hearings.

In an attempt to appease industry, the state proposed new rules that would discontinue remediation of contaminated groundwater and soil and rely instead on exposure controls and a one-time public notification. We actively lobbied against this rule change.

The 19,000 acres state forest within our county has been singled out by the Department of Natural Resources to be managed as timber intensive. For aesthetic and economic reasons, we want a balanced management plan for the forest. Through resolutions and meetings, we have taken an active role in management of our public forest.

We have fought attempts by landowners to block legitimate public access to lakes. We have been active in support of or opposition to state legislation that would affect our well being and quality of life. We recently passed a vintage ordinance that addresses our junk mobile home problem. After three years of planning, a county land use plan was just adopted.

Over the past decade, the Osceola County Board of Commissioners has met our many problems head on.

The National Association of Counties, the National Fish and Wildlife Foundation, and the Wildlife Habitat Council, in cooperation with the U.S. Environmental Protection Agency, the Community-Based Restoration Program within NOAA Fisheries, and other sponsors invite applications for the Five-Star Restoration Challenge Grant Program.

The program provides modest financial assistance on a competitive basis to support community-based wetland, riparian, and coastal habitat restoration projects that build diverse partnerships and foster local natural resource stewardship through education, outreach, and training activities.

The stars in "Five-Star" are the partners, funders, and/or participants necessary to complete the project, including schools or youth organizations; local or tribal governments; local businesses or corporations; conservation organizations or local citizens groups; state and federal resource management agencies; and foundations or other funders. Projects must therefore involve diverse partnerships of, ideally, five organizations that contribute funding, land, technical assistance, workforce support, and/or other in-kind services. Awards range between $5,000 and $20,000; the average grant is $10,000. Projects must include a strong on-the-ground wetland, riparian, or coastal habitat restoration.
To all MWTHA members and interested friends:

As we get through yet another northern Michigan winter, those of us still concerned about the welfare of the Eastern Wild Turkey in the cold and snowy north continue to do what we can to keep the birds going, most of that through our own pocketbooks, but also with the help of the MWTHA.

Although December and most of January was brutal, with extremely deep snow and bitter cold, our birds have continued to show what appears to be as growing ability to withstand long periods of time without adequate nutrition, as many of the birds we have recently located have proven. Ever seen a wild turkey wade an ice cold creek in the dead of winter to forage on winter-cress?

Numbers, overall, continue to suffer from the incredible numbers of avian and mammalian predators, the detrimental effects of a growing human population in the north, and perhaps, in areas with fall hunting seasons, too much hunting, not to mention the negative effects a lack of adequate winter nutrition has on a hen's ability to successfully nest and raise chicks in the spring.

Sadly, as it has been for the last decade, very few seem to recognize the looming threat of the wild turkey's extirpation in northern Michigan, or to care— their phones and video games are more important, as reflected in our overall declining number of hunters.

Volunteers continue to be few and far between, donations have continued to decline, and interest, overall, in joining together for the benefit of our wild turkey continues to fail.

But some of us continue to try to do what we can for the wild turkey and will continue to do so as long as there is breath in our bodies and birds in the woods. None of us wants the wild turkey to become a thing of the past in northern Michigan. So look at your calendar, find some time to get involved, and do what you can financially to prevent that from happening by renewing your membership in MWTHA and your interest in the future of our hunting sports.

Looking for information as to what the MWTHA will be up to this spring? Check out our website at www.mwtha.net, or our Facebook page, or just look inside!

Have a great spring and summer!
MEMBERSHIP DUES REMINDER

If you have joined the MWTHA before September 30, 2017 your dues are due March 1, 2018.

As we are all volunteer organization this simplifies the procedure for the State Chapter secretary.

Annual dues remain $10 for 2017.

If you want to have an opportunity to have a voice in conservation and management of our Wild Turkeys please renew your membership. The State Chapter of MWTHA exists from annual dues paid by our members. Please use the form found below.

Check the Renewal Box.

Our all volunteer organization does the best we can to update and keep membership current. If you have any problems with our membership please let us know.

Sign up a turkey hunting friend.

Jim Maturen • 231-832-2575 • 4111 Wild Turkey Trail • Reed City, MI 49677

Director of Membership & Chapter Development

Yes!

I’d like to join the Michigan Wild Turkey Hunters Association. A nonprofit tax exempt corporation dedicated to the wise conservation and the future success for the Wild Turkey of Michigan.

Sign me up as a:

REMINDER

Whether renewing your membership or just joining this great organization please include your E-mail address if you have one, on the application form. Thank you

MWTHA IS AN ALL VOLUNTEER, NON PAID CONSERVATION ORGANIZATION WORKING SO THAT OUR GRANDCHILDREN AND THEIR GRANDCHILDREN WILL BE ABLE TO EXPERIENCE THE WONDERS AND MAGIC OF THE OUTDOOR WORLD THAT WE HAVE EXPERIENCED.
TWO TROUT STREAMS DIED AND NO ONE CARES

This article is condensed from the huge file I have on the following subject.

In 2000 I was serving on the board of commissioners for Osceola County. I had established the Conservation, environment and Solid Waste committee within the committee structure. In the fall of 2000 we became aware that the foreign based Nestle Corporation announced that they wanted to pump water from two springs in Osceola and Mecosta counties, in addition from wells they would establish.

We had many citizens concerned about the impact Nestle would have on their wells, ponds, streams and wetlands. We found that Nestle had been kicked out of Wisconsin and had announced that they were going to western Michigan (Osceola and Mecosta counties). As their normal procedure is they approached two small towns in northern Wisconsin with a total population of 1000. Nestle announced that they wanted to tap two springs and pump 5000 gallons of spring water per minute and they would not hurt the environment, build a bottling plant, provide jobs and boost the economy. Massive opposition and the lawsuits began. Among the lawsuits was one by the Hochochunk Indian tribe. One of the town’s mayors was recalled. All during this time Nestle was drilling wells and preparing to build a huge factory. This was in Adams County who were zoned. Eventually they wrote a resolution that declared that they would not change their zoning for Nestle. Nestle then announced that they were headed to western Michigan.

A key to all of this was that the United States Geological Survey (USGS) publically stated that they did not trust Nestle, their monitoring and that Nestle’s operation would hurt the environment. I had the opportunity to have a series of conference calls with them and learned valuable information.

So in the fall of 2000 Nestle is at our door step. We held a well attended public meeting at the courthouse with a Nestle representative and an agent from the USGS present. We asked if Nestle would be willing to establish an escrow account to be used if wells and wetlands were affected. Their answer was NO! I asked the agent from the USGS to examine Nestle’s proposal. He did get back with me and predicted that if Nestle eventually gets what they want ponds and wetlands feeding the spring may dry up and not recharge. The two streams that begin from the spring will be affected. He warned not to trust Nestle’s monitoring.

Nestle had made the decision that they were going to Mecosta County first, tap a spring, drill wells on their property and build a bottling plant there.

A group of concerned citizens formed Michigan Citizens For Water Conservation (MCWC). They filed a lawsuit and eventually spent $1,000,000 fighting Nestle. While still in litigation Nestle built a $100,000,000 bottling plant larger than Buckingham Palace. Nestle received a permit to pump 400 GPM from the Mecosta County spring and a $9,500,000 tax break. The permit cost Nestle $200 which allows them to pump millions of gallons of the freshest, coldest water on earth.

After Nestle began pumping the flow to the Dead Stream and Thompson Lake was down to a trickle. The court ordered a reduction to 218 GPM. Currently they are pumping that amount of water from the spring plus ground water from their wells which adds up to millions, then billions of water and pay nothing for it.

Nestle’s next project is to draw water from the White Pine spring located in Osceola Township, Osceola County, which is near the city of Evart. Back in 2000 there was a large sign on US-10 as you entered Evart from the west. It read “Perier (Nestle) Go Home”. I found out that a local well driller had posted the sign. I wondered

THE MICHIGAN WILD TURKEY HUNTERS ASSOCIATION (MWTHA) Is THE ONLY HUNTING ORGANIZATION WITH THE MICHIGAN CONSERVATION FOUNDATION (MCF) THAT IS SUPPORTING THE PUBLIC LAND HUNTER.
Two Trout Streams Died and No One Cares . . .

why a well driller who could make a fortune placed such a sign. I contacted him (who now has been in business for over the past 60 years) and inquired why the sign was there. He told me that between industry, the city of Evart and private wells the aquifer had declined by ten feet. In 2017 I contacted him again to see if the aquifer had recharged. He stated no it had not and now has declined by fourteen feet. I have brought this to the licensing authorities several times without being acknowledged. How many millions of gallons of the coldest, purest water on earth must this be?

Forward to 2005. Nestle has paid $200 and had been granted a permit to draw water at 150 gallons per minute from the White Pine spring. Somewhere between then and now they began pumping 250 GPM. How they were able to do this without a permit I don’t know. This began like a soap box opera with twists, turns, lies, claims of questionable science (voodoo science). In 2016 Nestle applied for a permit to increase it’s take of water from the spring to 400 GPM. There was a huge amount of opposition from the public. A public hearing was held in Big Rapids where over 500 attended and many spoke in opposition. The Michigan Department of “Environmental Quality (MDEQ) has received over 80,000 comments on Nestle’s proposal.

A pile of local newspaper articles appeared during this period many claiming “State—Nestle agree that Nestle’s water withdrawal will not have negative effect on the environment”. Nestle was bringing out many facts as an example “Creek has greater base flow than state’s model predicts”. (remember the Voodoo science?). There was even one article about Trout Unlimited has no problem with the withdrawal.

The Michigan Safe Drinking Water Act is connected to the Natural Resources and Environmental Protection Act which states that groundwater pumping must have no negative impact. After Nestle began it’s pumping at White Pine Spring neighboring residents began to see environmental changes. Spring fed ponds dried up and haven’t recharged, wetlands affected and springs dried up or were reduced to a trickle. Chippewa and Twin Creek both have their beginning at the White Pine spring. Residents complained about the flow of low water and were taking photos of before and after.

On February 14, 2017 the MDEQ sent a two and a half page request for additional information. It required Nestle to review their pumping impact of streams, wetlands and bodies of water. Among the data required were the stream flow, stream temperatures, fish, aquatic species, method used, etc. (give and A+ to the MDEQ). Nestle had until August 30 to comply. They couldn’t. They were then given until September 30 to comply. They couldn’t. They were then given until November 3rd. It appears that they did not do that either. Nestle has hired a firm called Arcadis to monitor these things, so what is their problem? It couldn’t be that they are in serious violation could it?

I have never forgotten the prediction that the agent from the USGS had made to me in 2000. That and the fact that nothing was heard about Nestle’s requirement to survey the two trout streams I decided to research both streams to see if the water temperatures would support trout. I asked John McClane to assist me. John is a registered surveyor who knows the natural resources surrounding Nestle’s operation. He is also on the board of directors of Michigan Citizens For Water Conservation (MCWC). On July 17, 2017 we began our research by starting at the headwaters of both streams to where they enter the Muskegon River. We stopped at every culvert crossing. We found that the temperatures ranged from 51 degrees to 60 degrees which would support a trout population.

What I expected to find were full flowing streams. I couldn’t believe the low water that I was observing. On July 31 John and I began another segment of our research (in cooperation with MCWC). As water flows through a culvert for a long period of time aquatic growth appears on the sides of the culvert. This provides a historic

AS LONG AS WE EXIST WE SHALL REMAIN THE CHAMPIONS OF THE WILD TURKEY, IT’S PUBLIC LAND HABITAT AND HIGH QUALITY, ETHICAL HUNTING OF THEM.
record that can indicate if the water flow has been compromised. Our objective was to measure water depth in a culvert, measurement from the top of the water to the historic water line, measure the width of the culvert, check the water depth downstream and record any trout or other aquatic specie that was observed. (We found none). As we checked each culvert from the headwaters to the Muskegon River, we recorded water depth from 2 inches to 8 inches on average. It was estimated that historically between 14 to 18 inches of water flowed through the culverts. It should be noted that rainfall was 10 inches above normal for that area.

I had the temperature and water depth recorded but needed a background for reference. I learned that the DNR fisheries biologist for that area had retired, however there was a study of Whirling Disease conducted on both Chippewa and Twin Creeks in July of 2000. I was able to obtain the report. Four DNR fisheries biologists conducted the study using backpack shocking equipment. What they found on both streams were impressive populations of both native brook and brown trout up to 20 inches, of various sizes and age classes, along with an abundance of crayfish and other fish species. They collected 20 trout from each stream from 4 to 8 inches for the study. As I waded the exact same section of Chippewa Creek that they had the water was ankle deep. From our research and observations the dynamic aquatic eco system that was found in 2000 no longer exists.

A 2.5 page detailed report on our research of the two streams was sent to the MDEQ director. A reply was received from her.

A number of news media and others were notified of the results of our research in an effort to notify the public. It was distributed by Michigan Citizens For Water Conservation. FLOW (For The Love Of Water) based in Traverse City placed it on their web site as an interview. Bill Parker, editor of Michigan Outdoor News published it in it’s entirety. Certainly there would be outrage by the outdoors community. Wrong! Silence! After an article in the Cadillac News that stated “Trout Unlimited Has No Problem With Nestle’s Water Withdrawal” I sent a letter to Michigan TU president Burroughs. He replied that TU had reviewed the data from Nestle and had made that determination. A copy of the research report was sent to him. The result from TU? Silence! Both editors of the Cadillac News and Big Rapids Pioneer were sent copies of the research report. Result? Silence! Apparently a foreign corporation that trashed two trout streams that has been in existence for thousands of years isn’t news. Or could it be the full page ads from Nestle?

The Chippewa-Ottawa Resource Authority was contacted. No action from them. The Detroit Free Press was contacted. Never returned our phone call. A copy of research was sent to the executive director of Michigan United Conservation Clubs and a follow up email the deputy director. There was no response. We are a member. Perhaps it is time to part ways. Contacted Scott Heintzelman who is the chief MDNR fisheries biologist for the northern lower peninsula. He was asked to have the DNR take action on behalf of the fishery resource on the two streams. He has decided to defer to Nestle.

TV 9&10 at Cadillac and TV 7&4 at Traverse City were both contacted and never contacted us in return. Garret Ellison of MLive was contacted by telephone. He requested a copy of the research. One was sent to him. No reply. Contact was made with David Fair of Western Michigan University Public Radio. No Response! We were advised to contact Marc Smith at the National Wildlife Foundation. Nothing there either! We were also advised to contact Oday Salin at the Great Lakes Environmental Law Center. A call was made to them three times only reaching an answering service who promised to call back. They never did!

I have written several times about AISI, it stands for apathy, ignorance and self interest. It is very much alive and thriving.

By Jim Maturen

Articles and letters based on various topics by our members are welcome.
OF DEER AND RATTLE SNAKES

The Baldwin-Luther Swamp is a large swamp complex in Lake County and is part of the Pere Marquette State Forest. It is a major winter deer yarding area. Sometime around the 1960s and 1970s area Michigan Department of Natural Resources (MDNR) wildlife biologists created a series of openings on the edge of the swamp using deer hunting license dollars. Through the years they were maintained using Deer Range Improvement (DRIP) money.

The openings are impressive in size and are designed so that deer using them are not far from cover. They were planted in crops that provided a food source at the end of winter. Not only were they excellent habitat for deer, but other wildlife species as well, including Wild Turkeys.

Fellow MWTHA member Bill Shinn owns hunting property on the eastern edge of the swamp. Several years ago he observed that DNR wildlife openings on the edge of the swamp were no longer being managed and were falling into disrepair.

This past summer I was accompanied by a retired DNR employee who knows the area very well. We checked a series of those wildlife openings and found nothing but weeds and encroachment of new vegetation. I contacted the local DNR wildlife biologist and asked why they were no longer managing these openings. He replied that the endangered species biologist in Lansing wanted them set aside for Rattle Snakes. If they were allowed to be plowed, tilled and planted any Rattle Snakes present would be killed. Of course they had no idea how many Rattle Snakes were living there. The guy was just following orders from Lansing so I did not press the issue forward.

A dollar fifty of each deer hunting license sold is designated to the restricted DRIP fund. As it implies it is to be used to enhance deer habitat. A few years ago it was found that the DNR was using DRIP funds to plant Jackpine for the Kirtland Warbler. There was a big to do about this by the hunting community. Jackpine as it turns out is deer habitat also. This can not be said for converting critical deer habitat to Rattle Snake habitat.

This is just one case but how many DRIP funded openings and habitat projects have been converted or abandoned? As we noted on the last issue of Turkey Tracks about the diversion of the restricted Turkey Fund how much of the DRIP fund is actually used for deer range improvement? As in the case of the restricted Turkey Fund and the DRIP fund the DNR in establishing these types of funds there is a promise to the hunters and fishermen that if they are willing to pay more then that money will be used exactly as promised. Given a few years down the line and that is no longer the case.

What has happened to those wildlife openings on the Baldwin-Luther swamp is not acceptable. They must be returned to their original intended use and actively managed as such. If the DNR wants Rattle Snake habitat then create it. Back in my working days I remember a state statute called Larceny By Conversion and the penalties for those violating it.

By Jim Maturen

IF YOU HAVE ACCESS TO THE INTERNET CHECK OUT OUR UPDATED WEBSITE AT WWW.MWTHA.NET. IT IS UPDATED FROM TIME TO TIME AND WITH EACH ISSUE OF MICHIGAN TURKEY TRACKS WHICH IS PUBLISHED IN MARCH AND SEPTEMBER OF EACH YEAR.
We welcome articles dealing with Michigan's natural resources. We offer the author an opportunity to express his/her concerns or facts in print, where other publications will not do so.

This is the eighth article by John Gunnall that has appeared in Michigan Turkey Tracks. John is a retired school educator who has served as Superintendent of Schools for the Mattawan, Detour-Drummond Island, Crystal Falls, Hale and Bangor school districts. Many others who have been outdoorsmen and hunters over the past eight decades have witnessed declining game populations, declining hunters within our ranks and questionable management practices in the name of "Hunter Opportunity", "Recruitment And Retention" and "Impact On The Economy", among others.

Our Outdoor Habitat: The Crisis is Now

Basic to Man’s existence is an invisible tether that connects us inexplicably to the Earth’s resources. When any part of our planet is devalued all people and all her internal and external systems are affected. Currently another man caused crisis has revealed itself in my part of the world near the small community of Belmont, Michigan. Belmont is located only a stone’s throw from Grand Rapids, Michigan’s second largest city. Over fifty years ago an area manufacturer disposed of waste material containing chemical into the Earth which today is the likely source of residents living near the dump site who are no longer able to drink the water they pump from their wells. Without dwelling on this single event and other like incidents in Michigan one can easily understand the reoccurring problems when our outdoor habitat is being largely taken for granted in Michigan.

People in high places making decisions for us ordinary citizens know that our state’s habitat is being marginalized when we still lack a value quotient of our outdoor habitat. Decisions about saying “yes” to proposals must get beyond “dollars” and “past practice” and re-introduce the once credible response of just saying “no” to matters beyond the brain dead issues before our DNR Commissioners like “antler restrictions”, “ten brookie limits”, etc.

In the USA we champion democracy and its greater potential for representing the wishes of her citizens. Yet history reveals that several of the earliest leaders of successful civilizations that came into prominence long before America was founded espoused different philosophies with some ruled by benevolent dictators. It was once believed that a caring autocrat could more fairly and more efficiently save his subjects from their human frailties. Such rulers repudiated conventional wisdom later held by democratic governments of today. Remnants of stronger leaders whose style is reminiscent of some past rulers is actually refreshing to me given our “yes man” society where corruption has become a daily conversation.

This writer does not cotton to the belief that contrary historic governance as having once existed should be cause to abandon our representative form of democracy. With that being said, instances in history do show evidence of dictators holding their subjects accountable for preserving and protecting nature’s habitat.

I am further reminded of my days studying political philosophers and the fact that many of those early regimes ie: Greeks, Romans, etc., made their subjects strong through demanding thrift and their obligation to protect the potential for their lands in order to yield nature’s bounty. To consume their habitat for nefarious benefit was to “cut off their nose to spite their face” and was met with fierce retribution. Clean up and emergency legislation to assure habitat protection and preservation were never part of the equation when the consequences were immediate, severe and enforced to dissuade even the most reckless subjects.

Today with greater population driven by a material world that enables Americans with artificial influences “for having more and more things” we should not be surprised that we are taken to the brink by an ecosystem struggling with its capacity to withstand man’s thoughtless decisions. Our country and other nations must face the sobering reality that without taking a “value inventory” of our “full habitat” we will once again fall victim to the guestimates of the past. To place a value on habitat must take us beyond our “historic extrinsic assumptions” and compel examiners to use new multifaceted knowledge. Those who thrive on quick decisions and quicker fixes i.e.; (DNR Commissioners, etc.) will never understand or appreciate the depth of inquiry in the decision making process required for placing a value on Michigan’s habitat.

Help Wanted: Human qualifications sought in determining a value for Michigan’s habitat

1. Visionaries with preservationist mentalities, having no personal or political agendas.
2. Persons who are work driven not seeking personal gain or fame, i.e. Dr. Gregg Gunnell (recently deceased), World Renowned Duke University Paleontologist.
3. Men who recognize and have studied the collages of nature who are sensitive for identifying her interdependent systems.
4. Men who have depth perception for understanding nature in order to correct and repair damaged systems that she has already incurred.

Preserving habitat like money has reached the point that we must “figuratively” throw away the combination to the safe. We must not take the risk of uninformed spending of her dwindling potential. A mentality for the protection of a yet undefined value of habitat must begin now that dignifies those who “dare to say no” to a state which has allowed itself to recklessly harvest it heritage and fabricate resource numbers to protect revenue sources generated on the back of Mother Nature.
Pere Marquette Chapter

Winter had arrived over our 13 county chapter area. On January 8, 2018 we made our first purchase of 10,000 pounds of shelled corn. This is being written during the last portion of January. It has been an on again off again winter. What had been snow cover has melted in our southern counties, leaving bare ground and deep snow that has melted into ice in our northern counties.

So far we have helped to support 2,098 Wild Turkeys found over our 13 counties.

Winter is far from being over. We will continue to fund our winter survival program and support as many Wild Turkeys until spring shows it’s warm, fuzzy face again.

RESOLUTION AUTHORIZING SUBMISSION OF
RECREATION PASSPORT GRANT

WHEREAS, the Board of Commissioners supports the submission of an application titled, "Rose Lake Park Improvement Project" to the Recreation Passport Grant Program for electrical hook-up and water system renovations at 24 campsites in Rose Lake Park; and,

WHEREAS, the proposed application is supported by Osceola County's 5-Year Approved Parks and Recreation Plan; and,

WHEREAS, the Osceola County is hereby making a financial commitment to the project in the amount of $__________ matching funds, in cash; and,

NOW THEREFORE, BE IT RESOLVED that the Osceola County Board of Commissioners hereby authorizes submission of a Recreation Passport Grant Program Application for $__________, and further resolves to make available its financial obligation amount of $__________ of a total $133,200 project cost, during the 2020 fiscal year.
ADDENDUM TO 2019 MID-STATE HEALTH NETWORK SUBSTANCE USE DISORDER OVERSIGHT POLICY ADVISORY BOARD INTERGOVERNMENTAL AGREEMENT:

Background: The 2019 MSHN SUD OPB Intergovernmental Agreement and Addendum represent continuation of the state required original agreement/addendum, fully executed in January 2016 and expired as of December 31, 2018.

Action Required: As per motion ROPB 18-19-008 at the Mid-State Health Network (MSHN) Substance Use Disorder (SUD) Oversight Policy Advisory Board (OPB) Meeting on February 20, 2019, Addendum to the 2019 MSHN/Region 5 SUD OPB Intergovernmental Agreement (IGA) is presented for county commission review and signature. This addendum is inclusive of two (2) changes, highlighted below in bold print. The previous wording of the IGA follows the change in red. This addendum requires signatures from authorized agents of each of the 21 county commissions within the Mid-State Health Network region to finalize approval and fully execute the 2019 Substance Use Disorder Oversight Policy Advisory Board Intergovernmental Agreement.

SECTIONS WITH AMENDMENTS

RECITALS (p.1)

MSHN is a community mental health regional entity formed under the Mental Health Code, MCL 330.1204b, that, submitted its Application for Participation to the Michigan Department of Health and Human Services (formerly the Michigan Department of Community Health) in 2013 as a prepaid inpatient health plan (“PIHP”) under 42 CFR Part 438.

Under 2012 PA 500 and 2012 PA 501, the coordination of the provision of substance use disorder services will be transferred, no later than October 1, 2014, from existing coordinating agencies to community mental health entities designated by the Michigan Department of Health and Human Services (MDHHS) to represent a region of community mental health authorities, community mental health organizations, community mental health services programs or county community mental health agencies, as defined under MCL 330.1100a. (previous version said “MCL300.1100a(22)”)

COMPLIANCE WITH LAWS (pp.3-4): Section 2.7

MSHN, the Counties and the SUD Oversight Policy Advisory Board shall fully comply with all applicable laws, regulations and rules, including without limitation 1976 PA 267 (the “Open Meetings Act”), 1976 PA 422 (the “Freedom of Information Act”), 2012 PA 500, 2012 PA 501 and 1986 PA 2. MSHN and the Counties, as required by law, shall not discriminate against any board member or applicant for appointment to the Board “because of race, color, religion, national origin, age, sex, height, weight, marital status, familial status, or disability that is unrelated to the individual's ability to perform the duties of a particular job.” (previous version said “because of race, color, religion, national origin, age, sex, disability that is unrelated to the individual’s ability to perform the duties of a particular job or position, height, weight, or marital status”).
CERTIFICATION OF AUTHORITY TO SIGN THIS CONTRACT

The persons signing this Contract Addendum on behalf of the parties hereto certify by said signatures that they are duly authorized to sign this Contract Addendum on behalf of said parties, and that this Contract Addendum has been authorized by said parties pursuant to formal resolution(s) of the appropriate governing body(ies), copies of which shall be provided to MSHN.

IN WITNESS WHEREOF, the parties hereto have entered into, executed and delivered this Contract Addendum as of the dates noted below.

INTERGOVERNMENTAL CONTRACT FOR THE ESTABLISMENT OF A
SUBSTANCE USE DISORDER OVERSIGHT POLICY BOARD

This Contract (this “Contract”) is made as of the date it is fully executed and signed, by
and among Mid-State Health Network (“MSHN”), Arenac County, Bay County, Clare County,
Clinton County, Eaton County, Gladwin County, Gratiot County, Hillsdale County, Huron County,
Ingham County, Ionia County, Isabella County, Jackson County, Mecosta County, Midland
County, Montcalm County, Newaygo County, Osceola County, Saginaw County, Shiawassee
County and Tuscola County (individually referred to as the “County,” and collectively referred to
as the “Counties”). This Contract is authorized and undertaken pursuant to Section 287 of the
Michigan Mental Health Code (Public Act 258 of 1974, as amended the “Code”), the Michigan
Intergovernmental Transfer of Functions and Responsibilities Act (Public Act 8 of 1967)
and/or the Michigan Intergovernmental Contracts between Municipal Corporations Act (Public Act 35 of
1951).

RECITALS

MSHN is a community mental health regional entity formed under the Mental Health Code,
MCL 330.1204b, that has submitted its Application For Participation as a prepaid inpatient health
plan (“PIHP”) under 42 CFR Part 438.

The Counties are located in a region designated by the Michigan Department of Health
and Human Services (“MDHHS”) as Region 5 under MDHHS’s restructuring of PIHPs in Michigan.

Under 2012 PA 500 and 2012 PA 501, the coordination of the provision of substance use
disorder services will be transferred, no later than October 1, 2014, from existing coordinating
agencies to community mental health entities designated by MDHHS to represent a region of
community mental health authorities, community mental health organizations, community mental
health services programs or county community mental health agencies, as defined under MCL
300.1100a(22).

MSHN represents twelve (12) community mental health organizations in Region 5 and
qualifies as a MDHHS-designated community mental health entity to coordinate the provision of
substance use disorder services in Region 5.

MSHN, as a MDHHS-designated community mental health entity, is required, under MCL
330.1287(5) to establish a substance use disorder oversight policy board (SUD Policy Board)
through a contractual agreement, under appropriate law, between MSHN and each of the
Counties in Region 5.

MSHN and the Counties desire to enter into this Contract to establish a SUD Policy Board.

NOW, THEREFORE, in furtherance of the foregoing and for good and valuable
consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto
agree as follows:

ARTICLE I

PURPOSE

Section 1.1 PURPOSE. The purpose of this Contract is to set forth the terms and
conditions for the establishment of a SUD Policy Board pursuant to MCL 330.1287(5).
ARTICLE II
SUD POLICY BOARD

Section 2.1  FUNCTIONS AND RESPONSIBILITIES.  The SUD Policy Board shall have the following functions and responsibilities:

2.1.1  Approval of any portion of MSHN’s budget that contains 1986 PA 2 (MCL 211.24e(11)), funds (“PA 2 Funds”) for the treatment or prevention of substance use disorders which shall be used only for substance use disorder treatment and prevention in the Counties from which the PA 2 Funds originated;

2.1.2  Advise and make recommendations regarding MHSN’s budgets for substance use disorder treatment or prevention using non-PA 2 Funds; and

2.1.4  Advise and make recommendations regarding contracts with substance use disorder treatment or prevention providers.

2.1.5  In addition, the SUD Policy Board may be assigned by MSHN to advise and make recommendations to MSHN regarding any other matters as agreed to by the Counties and MSHN including advising and making recommendations to MSHN on issues regarding:

2.1.1.1  Methods, policies or practices to ensure quality of SUD services including culturally competent policy and practices for the delivery of those services;

2.1.1.2  Methods, policies or practices to ensure that SUD services made available through the PIHP/Regional Entity are accessible, responsive to regional needs, available to all segments of the community, and are delivered in a comprehensive manner;

2.1.1.3  Reviewing and/or providing recommendations regarding the strategic plan developed by the PIHP/Regional Entity to address the prevalence of SUD in the service areas from a recovery-oriented systems of care (ROSC) perspective and approach;

2.1.1.4  Reviewing and/or providing recommendations regarding the establishment of sustainability plans for ROSC initiatives to include prevention, treatment and recovery supports;

2.1.1.5  Reviewing and/or providing recommendations to expand and coordinate resources and activities with other agencies, community organizations and individuals to support the mission of the PIHP/Regional Entity where ROSC are concerned;

2.1.1.6  Methods, policies or practices to provide an opportunity for public comment, and receive and review comments on matters relevant to SUD prevention, treatment and recovery within the communities serviced by the PIHP/Regional Entity;
2.1.1.7 Reviewing and/or providing recommendations on the annual application for the federal block grant, as well as the renewal and issuance of SUD services licenses;

2.1.1.8 Reviewing and/or providing recommendations on the progress and effectiveness of the delivery of SUD services in the region;

Section 2.2 APPOINTMENT/COMPOSITION. The Board of Commissioners of each of the Counties shall appoint one (1) member of the MSHN SUD Policy Board. The Board of Commissioners may appoint County Commissioners or others, as allowed by Michigan law, that it deems best represents the interests of its County. While the appointment decision is vested within the sole authority of the each County Board of Commissioners, Parties to this Agreement acknowledge that MDHHS encourages appointments which represent the cultural diversity of the area served, appointments of persons in recovery from a substance use disorder, underserved populations and other related constituencies such as education, health, and social services agencies; advocacy organizations; public or private substance abuse prevention, treatment or recovery providers; members of the general public, including civic organizations and the business community.

Section 2.3 TERM. The term of membership for a member of the MSHN SUD Policy Board shall be three (3) years, beginning in January and ending in December. Members may be reappointed to additional or successive terms in the discretion of the respective Board of Commissioners.

Section 2.4 VACANCIES. A vacancy on the SUD Policy Board shall be filled by the County that originally filled the vacated position in the same manner as an appointment.

Section 2.5 REMOVAL. By majority vote of the Board of Commissioners, a County that appointed a SUD Policy Board member may remove its appointee at any time with or without cause. The SUD Policy Board is responsible for informing the relevant County of any lack of participation or attendance by the County’s appointed SUD Policy Board member.

Section 2.6 ETHICS AND CONFLICTS OF INTEREST. The SUD Policy Board shall adhere to all conflict of interest and ethics laws applicable to public officers and public servants, serving as members of the SUD Policy Board.

Section 2.7 COMPLIANCE WITH LAWS. MSHN, the Counties and the SUD Policy Board shall fully comply with all applicable laws, regulations and rules, including without limitation 1976 PA 267 (the “Open Meetings Act”), 1976 PA 422 (the “Freedom of Information Act”), 2012 PA 500, 2012 PA 501 and 1986 PA 2. MSHN and the Counties, as required by law, shall not discriminate against any Board member or applicant for appointment to the Board because of race, color, religion, national origin, age, sex, disability that is unrelated to the individual’s ability to perform the duties of a particular job or position, height, weight, or marital status. Breach of this section shall be regarded as a material breach of this Agreement.

Section 2.8 BYLAWS. The SUD Policy Board shall adopt Bylaws which may be amended by the SUD Board as provided in those Bylaws subject to the review and approval of MSHN.
ARTICLE III

MSHN

Section 3.1 FUNDING. Each County will provide MSHN funding, as required by Section 24e of the General Property Tax Act (MCL 211.24e as amended) to be used only for substance abuse prevention and treatment programs in each County. MSHN shall ensure that funding dedicated to substance use disorder services shall be retained for substance use disorder services and not diverted to fund services that are not for substance use disorders. MCL 330.1287(2).

ARTICLE IV

TERM AND TERMINATION AND DISPUTE RESOLUTION

Section 4.1 TERM. The Term of this Contract shall commence as of the date it is fully executed and signed by all parties and shall continue for three years unless terminated at an earlier date as provided in Section 4.2. This Agreement is subject to the precondition that this Agreement be approved by concurrent resolution by each and every County. A copy of this Agreement once approved will be filed with the Secretary of State for the State of Michigan.

Section 4.2 TERMINATION. Any party may terminate its participation as a Party to this Contract at any time for any or no reason by giving all other parties thirty (30) days written notice of the termination. Any notice of termination of this Contract shall not relieve either party of its obligations incurred prior to the effective date of such termination.

Section 4.3 DISPUTE RESOLUTION. The Chief Executive Officer of MSHN will attempt to resolve disputes through discussion with the Chairperson of the SUD Policy Board or County Controller or Administrator, as needed. Occasionally disputes may arise between the SUD Policy Board and MSHN, or one or more of the Counties and MSHN, arising out of and relating to this Agreement or a breach thereof which cannot be resolved through amicable discussion. In such cases, if the dispute remains unresolved:

4.3.1 If the dispute is between MSHN and the SUD Policy Board, the governing board of either party may by majority vote request a meeting of designated representatives of the MSHN Board and SUD Policy Board in an effort to resolve the matter. Any mutual agreement by the parties will be reduced to writing and voted upon by each Party’s governing board. If no mutual agreement is reached, the decision of MSHN as adopted by a majority vote of the MSHN Board will be deemed final.

4.3.2 If the dispute is between MSHN and one or more of the Counties, the governing board of either party may by majority vote request a meeting of designated representatives of the MSHN Board and representatives of one or more County Boards in an effort to resolve the matter. Any mutual agreement by the parties will be reduced to writing and voted upon by each Party’s governing board. If MSHN or one or more of the Counties remain dissatisfied, the Parties may mutually agree to non-binding mediation. If non-binding mediation is agreed to, the Parties may mutually agree upon a mediator or submit a request that mediation be administered by the American Arbitration Association under its Mediation Procedures before resorting to arbitration, litigation, or some other
dispute resolution procedure. The Parties recognize that mediation is a non-binding process to assist them to resolve their disputes by making their own free and informed choices, and that the mediator will have no authority to impose a settlement on any party but only to discuss and suggest options for resolution. If the Parties do not agree to mediation, or if the Parties do not reach a mutually agreeable settlement through mediation within 30 days after initiation of mediation, the Parties may pursue any other dispute resolution or legal recourse as provided by law. The mediation process will take place at a reasonably convenient location to be agreed upon by the parties or determined by the mediator. At the option of the Parties, mediation sessions may take place by telephone or video conference or online when the technology is available. Administrative fees and mediator compensation for the process will be paid equally by the Parties to the dispute.

ARTICLE V

LIABILITY

Section 5.1 LIABILITY/RESPONSIBILITY. No party shall be responsible for the acts or omissions of the other party or the employees, agents or servants of any other party, whether acting separately or jointly with the implementation of this Contract. Each party shall have the sole nontransferable responsibility for its own acts or omissions under this Contract. The parties shall only be bound and obligated under this Contract as expressly agreed to by each party and no party may otherwise obligate any other party.

ARTICLE VI

MISCELLANEOUS

Section 6.1 AMENDMENTS. This Contract shall not be modified or amended except by a written document signed by all parties hereto.

Section 6.2 ASSIGNMENT. No party may assign its respective rights, duties or obligations under this Contract.

Section 6.3 NOTICES. All notices or other communications authorized or required under this Contract shall be given in writing, either by personal delivery or certified mail (return receipt requested) and shall be deemed to have been given on the date of personal delivery or the date of the return receipt of certified mail.

Section 6.4 ENTIRE AGREEMENT. This Contract shall embody the entire agreement and understanding between the parties hereto with respect to the subject matter hereof. There are no other agreements or understandings, oral or written, between the parties with respect to the subject matter hereof and this Contract supersedes all previous negotiations, commitments and writings with respect to the subject matter hereof.

Section 6.5 GOVERNING LAW. This Contract is made pursuant to, and shall be governed by, construed, enforced and interpreted in accordance with, the laws and decisions of the State of Michigan.
Section 6.6 **BENEFIT OF THE AGREEMENT.** The provisions of this Contract shall not inure to the benefit of, or be enforceable by, any person or entity other than the parties and any permitted successor or assign. No other person shall have the right to enforce any of the provisions contained in this Contract including, without limitation, any employees, contractors or their representatives.

Section 6.7 **ENFORCEABILITY AND SEVERABILITY.** In the event any provision of this Contract or portion thereof is found to be wholly or partially invalid, illegal or unenforceable in any judicial proceeding, such provision shall be deemed to be modified or restricted to the extent and in the manner necessary to render the same valid and enforceable, or shall be deemed excised from this Contract, as the case may require. This Contract shall be construed and enforced to the maximum extent permitted by law, as if such provision had been originally incorporated herein as so modified or restricted, or as if such provision had not been originally incorporated herein, as the case may be.

Section 6.8 **CONSTRUCTION.** The headings of the sections and paragraphs contained in this Contract are for convenience and reference purposes only and shall not be used in the construction or interpretation of this Contract.

Section 6.9 **COUNTERPARTS.** This Contract may be executed in one or more counterparts, each of which shall be considered an original, but together shall constitute one and the same agreement.

Section 6.10 **EXPENSES.** Except as is set forth herein or otherwise agreed upon by the parties, each party shall pay its own costs, fees and expenses of negotiating and consummating this Contract, the actions and agreements contemplated herein and all prior negotiations, including legal and other professional fees.

Section 6.11 **REMEDIES CUMULATIVE.** All rights, remedies and benefits provided to the parties hereunder shall be cumulative, and shall not be exclusive of any such rights, remedies and benefits or of any other rights, remedies and benefits provided by law. All such rights and remedies may be exercised singly or concurrently on one or more occasions.

Section 6.12 **BINDING EFFECT.** This Contract shall be binding upon the successors and permitted assigns of the parties.

Section 6.13 **NO WAIVER OF GOVERNMENTAL IMMUNITY.** The parties agree that no provision of this Contract is intended, nor shall it be construed, as a waiver by any party of any governmental immunity or exemption provided under the Mental Health Code or other applicable law.

**ARTICLE VII**

**CERTIFICATION OF AUTHORITY TO SIGN THIS CONTRACT**

The persons signing this Contract on behalf of the parties hereto certify by said signatures that they are duly authorized to sign this Contract on behalf of said parties, and that this Contract has been authorized by said parties pursuant to formal resolution(s) of the appropriate governing body(ies), copies of which shall be provided to MSHN.
IN WITNESS WHEREOF, the parties hereto have entered into, executed and delivered this Contract as of the dates noted below.

MEMORANDUM OF AGREEMENT
between the
Michigan Department of Health and Human Services
Aging and Adult Services Agency
And
Osceola County through the Commission on Aging Department
For Senior Project FRESH/Market FRESH

Purpose: The Senior Farmers Market Nutrition Program (Senior Project FRESH) will provide coupons for the purchase of fresh, nutritious, unprepared, locally grown fruits and vegetables from authorized farmers markets and roadside stands to individuals age 60 years and older with gross incomes at or below 185% of the poverty level who reside in Osceola County. Coupons will be distributed on a first-come, first-served basis during the period May 1 through September 30, 2019 for redemption during the period May 1 through October 31, 2019.

The MDHHS Aging and Adult Services (AASA) agrees to:

A. Provide coupon books based on federal, state, and local dollar allocations.

B. Provide administrative direction and program coordination to local Senior Project FRESH program lead agencies.

C. Provide training on the receipt, handling and processing of Senior Project FRESH coupons distributed by AASA.

D. Provide computer-based applications for maintenance of application data.

E. Conduct a desk audit each year of program operations, and, when feasible, an in-person visit every two years of the lead agency.

F. Provide at no charge, “And Justice for All” posters.

G. Provide reports on redemption as well as demographic data in a timely manner.

H. Provide bi-weekly email updates regarding the program.

I. Will roll-over non-spent monies used for purchase of 2018 books for use in 2019 by the county or will refund the remaining balance.

The Senior Project FRESH program site located in Osceola County assures that:

A. Individuals enrolled in the Senior Project FRESH program are eligible according to established guidelines (income, age, residence).

B. Program staff participate in AASA offered training in the handling and distribution of Senior Project FRESH/Market FRESH coupons.
C. Nutrition education will be provided to all applicants. Those not eligible for the program will receive nutrition handouts, one-to-one counseling, group classes, market demonstrations, or other means as approved by AASA.

D. Staff and volunteers working with the Senior Project FRESH program are trained according to USDA guidelines.

E. Prior to December 1, 2019, will submit the following to AASA:
   a. List of numbers of the non-issued coupon books
   b. Applicant data entered into the Lead Agency Database http://www.osapartner.net/leadagency OR completed applications and original coupon registers mailed to AASA.

F. All applicants will be provided with referrals to nutrition counseling, congregate meals, home delivered meals, personal care and chore services, if requested.

G. All information pertaining to the applicant will be maintained within a secure environment that provides complete client confidentiality.

H. All applications will be kept by the lead agency for three calendar years in a secure location, as required by USDA guidelines.

I. Osceola County Commission on Aging assures AASA that they are not on the “Excluded Parties List” and may receive coupons from federal funding sources. (http://www.sam.gov)

J. Will provide copies of civil rights policies, nondiscrimination, hearings, appeals, judicial review rights procedures to applicants and participants upon request.

K. Will display “And Justice For All” posters at all distribution sites.
