B. Request for Sewer line Easement - Discussion Only

City Manager Thornton stated that there was no further information from the requestor, so requesting to be removed from the Agenda until the appropriate time.

C. Consider a Variance Application for 838 Beaver Run, Stone Mountain, GA 30083; parcel 18 074 07 022

City Manager Thornton gave an update on the application for a variance to the single-family dwelling new construction in the Historic Shermantown district. The owner needed a variance of 403 sq ft in reduction of the lot size and a reduction of lot width from 50 ft to 45.7 ft and an increase of the building height from 30 ft to 32 ft. She stated that his variance was presented to Planning and Zoning and their recommendation was to allow for the variance of Items 1 and 2 and not Item 3. City Manager Thornton advised Council that the applicant did have neighbors at the meeting who were not in opposition of the building height variance; and that Mr. Collins would speak with his architect to see if they could make the 30ft height of the building work without changing the pitch of the house.

Mayor Pro Tem wanted to clarify that the approval would be for Item 1 and Item 2 but not Item 3. Therefore, there were no further questions after the discussion.

Variance of Item 1 and Item 2 approved 4-0

Council decided to wait on the architect’s decision on the height of the house to stay within the 30ft and not make a decision to go against the recommendation of Planning and Zoning at this time.

D. Councilmember Hollis moved for the approval of the City’s Match for the Atlanta Regional Commission Parking Study Assistance Grant for $3200; seconded by Councilmember Little.

Mayor Pro Tem discussed that DDA reached out to ARC for a parking study grant and the grant was received with a match of $3200. DDA felt that it was better suited for the City to take the lead on the study and not DDA since it could impact City ordinances. She stated that if this is approved then we would need to finalize our scope and get started on the actual study and then implement within the next year depending on findings.

City Manager Thornton advised that upon Council’s approval she will bring an amendment to the budget for the $3200.00 in a special called meeting.

Approved 4-0

E. Councilmember Hollis moved for the Placement of Advertisement in Newcomer's Guide & Dekalb Chamber Membership Directory

City Manager Thornton gave explanation of the item and suggested anywhere from a ¼ page to a ¾ page advertisement by the City and it would come out of General Government Advertising.

Council agreed on a ½ page advertisement.
Councilmember Hollis moved for the placement of a ½ page advertisement in the Newcomer's Guide & DeKalb Chamber Membership Directory in the amount of $800.00; seconded by Councilmember Littie. No further discussion.

Approved 4-0

F. Councilmember Hollis moved for the Purchase of Police Radios/Golf Cart from our SPLOST fund in the amount of $23,614.70; seconded by Councilmember Mailman.

City Manager Thornton explained that a few years ago it was put into place to phase out the radios because their obsolete, so a couple are bought every year since then; therefore, SPLOST funds will allow the City to get the rest of the necessary radios at one time. The cost of the replacement of the radios will be $16,777.70. She stated that since this is a golf cart community the Police Department has been wanting a golf cart and for the need for the Administration Department as well if needed. Chief Troutman advised that the golf cart would be outfitted with lights. Councilmember Hollis questioned the fee for outfitting the golf cart with lights, and City Manager Thornton stated that a quote has not been received as of yet for the lights.

Approved 4-0

G. Councilmember Hollis moved for the discussion of the Application of the City Sign Ordinance – Reconstruction of Rockborough Subdivision Entrance Sign at the Intersection of Rockbridge and Rockbrough Drive.

Discussion was had between Council, City Manager Thornton and the residents of the Rockbrough subdivision. Sign will require a sign permit, which has never been submitted by the representative of the HOA of Rockbrough subdivision. A stop work order is currently on the construction of the sign because no sign permit was ever obtained and the materials of the sign are not in compliance with ordinance; therefore, a Variance Application would need to be submitted to the Council or another option would be to make changes to the Sign ordinance which will require two reads. In order for the sign permit to be obtained, a Certificate of Liability will have to be submitted in the amount of a $1,000,000. There was also questioning if the City would be willing to place the sign under their Certificate of Liability being that the sign is in the right of way; however, that would open the City up to insuring every other subdivision sign within the City limits. Council decided that they would look into amending the code and there would be a meeting between City Manager Thornton and Mr. John Claude to receive the sign permit application, as well as looking at the issue of the Certificate of Liability.

H. Councilmember Hollis moved for the approval of the Municipal Court Judge Gina Bernard.

No discussions or questions.

Approved 4-0
