## Success thus far...

You may have noticed that downtown Williamston has seen many improvements during the past several years. Williamston Downtown Inc. has been working with the North Carolina Main Street Program to create three active revitalization sub-committees: **Economic restructuring, Design improvements, and Promotion.** These sub-committees have focused on implementing strategies from recent downtown studies and the Main Street Program. Revitalization efforts have been made possible with support from members of our community like yourself. If you are not a current member we would like to invite you to be a part of Williamston Downtown Inc. By becoming a member you will join with other working and supportive business and property owners to strengthen and develop a vibrant and exciting downtown.
