Re: Court Security

I would like to first of all thank the Commission for setting aside the Twenty-five Thousand Dollars ($25,000) to be utilized in some form or fashion for court security. Due to my previously scheduled hearings for this afternoon, I am unable to attend the meeting today regarding court security.

First, I would like to address the fact that in Magistrate Court we are the first court in most all criminal cases that have contact with the offender. Within the last couple of months we have noticed the increase of criminal cases coming through the door with a majority of those cases being felony charges. Many times the offender will appear in court without an officer bringing them in to be arraigned. This causes alarm as the offender can be here for some time before they can be arraigned as an officer cannot arrive at the court immediately or we may be in hearings and they will have to wait. No matter what the charge is for the offender, and unfortunately with the rise of drug related cases, we cannot anticipate what possible incidents could occur without law enforcement accompanying the offender.

At this point in time we have no form of security other than the cameras though out the building, which for the most part would provide possible video after the fact of an incident occurring, except for inside the Magistrate offices. There have been occasions within the last couple of months that law enforcement has been needed in Magistrate Court because of behavior of individuals who have entered the court. Even though the Sheriff’s Department is in the same building we cannot always count on a deputy being available to assist in emergency situations.

I am an advocate for the use of the Twenty-five Thousand Dollars ($25,000) that has been set aside for court security to be utilized for Magistrate Court to provide us with a bailiff, possible two (2) part-time, for us to have security on a full-time basis. I understand we live in a small community in West Virginia and we hope and pray that nothing major happens criminally; however, with recent incidents that have occurred we know we are not exempt. Thank you for your consideration.

Sincerely,

Kay Hurst, Magistrate

Subject: Needle Exchange Program proposal by the Upshur County Health Department

Date: April 23, 2018

Dear Commissioners:

As I have spoken directly with Mr. Nolte and Mr. Brady about this issue and my concerns, I will not belabor the points we have previously discussed. I would like to be able to address the Commission directly and in person; however, due to work commitments, I will be unable to attend the Commission meetings for the next three weeks. Given the time frame in which the Health Department apparently plans to implement this needle exchange program, I feel that it is necessary to submit my concerns in writing and to urge you to exercise whatever authority you have to delay implementation of this program and to recommend that the Board of Health give the public more time to consider the issues related to this plan, ask questions, obtain information, and provide input as to whether we, the citizens of Upshur County, are in support of a needle exchange program.

In my conversations with Mr. Nolte and Mr. Brady, it was expressed that the Commission may not have much authority to influence the decisions of the Board of Health and Health Department in this matter. However, I respectfully disagree for the following reason(s) - the Health Department is supported by taxpayer funding, both from the state level as well as locally, and as the County Commission is responsible for the allocation of funding and financial resources within the county, I believe that you DO have the authority and the duty to question the use of taxpayer money that may be spent to support this program. As representatives of the citizens of Upshur County, I ask you to represent all of us, not just those who are unfortunately the self-inflicted “victims” of drug abuse. I understand that this “Harm Reduction” Program is primarily funded by outside, private sources; however, I ask the following questions for the Commission to consider in regard to the fiscal and financial operations of the Health Department:

a. What percentage of Health Department employees’ time will be spent on administering and operating the needle exchange program? Will that amount of employees’ salaries be charged to a funding source that does NOT involved use of public, taxpayer monies for their compensation?

b. What portion or percentage of local funding sources, provided by the Commission, will go toward indirect program costs? Specifically, since the County Commission provides the physical structure in which the Health Department operates, and the operating costs for heating, cooling, and other utilities and telephone/computer/internet services, will a portion of these operating...
costs by reimbursed by outside funding sources? If not, then it can be argued that taxpayer monies are indeed being used to support this needle exchange program.

In conclusion, I would like to thank the County Commission for considering the concerns and issues raised about the needle exchange program. I would also ask that the Commission urge the Health Department to at least delay implementation of the needle exchange component of the Harm Reduction Program and to provide the citizens of Upshur County an opportunity to consider the merits and/or disadvantages of this program and to ask questions and obtain answers as to how this program may impact our community. Thank you so much for your attention and consideration of this matter.

Respectfully Submitted,

Dear Commissioners:

I have been in contact with the Upshur County Magistrates, Magistrate Mike Coffman and Magistrate Glenda Hurst regarding their concerns about security in Upshur County Magistrate Courts. I want to thank you for considering setting aside funds for magistrate court bailiffs.

As all of you know, courthouses are vulnerable to acts of random violence. Magistrates deal with very serious situations with people under arrest, dealing with domestic issues and filing civil suits regarding landlord-tenant situations. These all, at times, can become heated situations.

Many times magistrates' protections are forgotten about by many counties. This is why I want to commend the Commission of Upshur County for taking this matter under advisement to protect the Upshur County Magistrates, staff and most of all, the citizens in Upshur County.

Once again, thank you so much!

New Funding Available for Code Enforcement in West Virginia

Posted on 04.17.18 by The Hub

BY KATELYN CAMPBELL, APC VISTA, THE HUB

Abandoned houses are far too common in West Virginia, and the West Virginia Housing Development Fund (WVHDF) has recently made new resources available to do something about it.

The state agency recently announced a new component of its Property Rescue Initiative program that provides technical assistance support for small communities (20,000 residents or less for cities, < 50,000 residents or less for counties) looking to either start or grow their code enforcement programs.

The Code Enforcement Technical Assistance program allows municipalities, counties, or an organization designated by them to apply for a forgivable loan of up to $10,000 to support code enforcement work. Funds can be used for:

Fees associated with adopting and updating ordinances designed to address neglected properties including but not limited to the International Building Code and International Property Maintenance Code

Procurement of certified code enforcement officials, including companies hired by a unit of government

Training in code enforcement procedures and practices

Costs associated with professional qualifications, individual certification and/or departmental accreditation

Contractor labor as it relates to demolition of dilapidated residential structures

Code enforcement officials perform a vital role when it comes to maintaining both rural areas and downtowns. They are responsible for ensuring that buildings and other property do not create hazardous conditions for the average passerby or the surrounding community.

Want to learn more about the West Virginia Property Rescue Initiative Code Enforcement Technical Assistance Support Program? Check out this page on the WVHDF’s website, or contact Donna Martino at DMartino@wvhdf.com. The deadline for pre-applications is May 29 at noon.

This Summer, Jamie Johnson and ART26201 will offer a Young Filmmakers Camp at LASCAUX Micro-Theater in Buckhannon, West Virginia. The five-day workshop will teach students the fundamentals of filmmaking. This project is designed to engage the student in creative thinking and then to produce a film from their ideas. Students will receive hands-on experience in acting, directing, filming, editing and writing a narrative film. Students will experience what it is like to be on a film crew, and to work collaboratively. By the end of the week, students will not only complete a shot-by-shot remake of a famous Hollywood film scene, but they will also create a short film (3 to 5 minutes) based on one of the scripts developed at the camp that week. Snacks and drinks will be provided, however, students will be asked to bring a lunch daily.

All classes will be held at Lascaux Micro-Theater. At the end of the camp we plan to host a premiere of all completed work, and students, parents, and friends will get to see the participants’ films on the big screen. Participants from previous camps are encouraged to participate again this year in an advanced program.

Please contact info@ART26201.com to reserve your child’s seat!

Place: LASCAUX Micro-Theater
Age: 10-15+/-
Time: 9:00AM - 4:00PM Daily
Seats: 6(min) - 12(max)
Fee: $100
