PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

At a session of the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 17th day of May 2019.

GENERAL ORDER NO. 187.50
In the matter of wireless enhanced 911 fees.

COMMISSION CORRECTIVE ORDER

This Order rescinds the May 14, 2019 Order in this matter to correct an error.

As corrected, the Public Service Commission increases the wireless enhanced 911 fee from $3.34 to $3.86 per month, per subscriber, to become effective July 1, 2019.

BACKGROUND

County Commissions derive revenues to operate enhanced emergency telephone systems from two different sources, the first being that County Commissions are authorized by statute to impose a fee (Enhanced 911 Fee) on consumers of local exchange service as well as voice over internet protocol (VoIP) service within their respective counties. W.Va. Code §7-1-3cc. This fee is placed on the bills of the telephone providers and the monies received by the providers are distributed directly to the County Commissions. Other than establishing rules, as directed by the Legislature, for the payment and collection of VoIP fees, the Commission has no role in establishment, administration, or collection of these fees. Rules and Regulations Governing Emergency Telephone Service, 150 C.S.R. 25, (Emergency Telephone Rules).

The second source of 911 revenues for County Commissions comes from the wireless enhanced 911 fee (Wireless E-911 Fee). This fee was established by statute at a minimum of $3 per month for each valid retail commercial mobile radio service subscription. W.Va. Code §24-6-6b(b).

The Wireless E-911 Fee is paid by customers to the service providers who, in turn, remit the fees to the Commission. The Commission retains none of the fees and distributes the monies received according to instructions contained in statute. Specifically,

- One million dollars is placed in a fund, each year, to subsidize the construction of wireless towers.
Ten cents of the amount collected per subscriber is distributed to the West Virginia State Police to be used for equipment upgrades for improving and integrating their communications efforts with those of the enhanced 911 systems.

Five percent of the fees are deposited in a special fund established by the Division of Homeland Security and Emergency Management to be used solely for the construction, maintenance and upgrade of the West Virginia Interoperable Radio Project.

The remainder of the money is distributed to the counties according to the formula set forth in W.Va. Code §24-6-6b(b) and (d).

W.Va. Code §24-6-6b(c) provides that

Beginning in the year [1997], and every two years thereafter, the Public Service Commission shall conduct an audit of the wireless enhanced 911 fee and shall recalculate the fee so that it is the weighted average rounded to the nearest penny, as of the first day of March of the respecification year, of all the enhanced 911 fees imposed by the counties which have adopted an enhanced 911 ordinance.

If the weighted average of the Enhanced 911 Fees exceeds the statutory minimum $3 per month Wireless E-911 Fee, the Commission must increase the Wireless E-911 Fee to the weighted average of the Enhanced 911 Fees but not by more than twenty-five percent of the Wireless E-911 Fee at the beginning of the respecification year.

Commission Staff calculated the weighted average of Enhanced 911 Fees imposed by the County Commissions during the respecification years (which are the odd years). The weighted average of the Enhanced 911 Fees has been below the Wireless E-911 Fee in each of those years until 2017. The annual data received by Staff shows that the total number of landline subscribers has trended downward over time. Recent weighted average calculations of the Enhanced 911 Fees in odd years resulted in fees of $2.38 (2011), $2.30 (2013), $2.63 (2015) and $3.34 (2017). The 2019 data submitted to Staff from the providers of landline service and VoIP service show the number of subscribers per county and the Enhanced 911 Fee imposed by each County Commission. Staff calculated a weighted average Enhanced 911 Fee of $3.86 as of March 1, 2019. See, 2019 Staff Audit of Wireless Enhanced 911 Fees, Attachment A, May 3, 2019.

On May 14, 2019, the Commission issued an Order in this case. Inadvertently, the Commission used a prior draft of the 2019 Staff Audit of Wireless Enhanced 911 Fees memorandum, dated May 2, 2019, instead of the updated memorandum dated May 3, 2019. The prior draft did not have fully updated fee information for Marion County.
DISCUSSION

The May 14, 2019 Commission Order inadvertently used the incorrect draft of the 2019 Staff Audit of Wireless Enhanced 911 Fees memorandum. To correct that error, the May 14, 2019 Commission Order will be rescinded by this Order.

Emergency Telephone Rule 11.1 provides that if it is necessary for the Commission to recalculate the Wireless E-911 Fee, the new rate takes effect July 1 of the respecification year.

W.Va. Code §24-6-6b(c) directs the Commission to recalculate the fee if the weighted average of the Enhanced 911 Fee exceeds the $3 statutory minimum Wireless E-911 Fee.

Accordingly, effective July 1, 2019, under the provisions of W.Va. Code §24-6-6b(c), the Commission is required to establish a Wireless E-911 Fee of $3.86 per month.

FINDINGS OF FACT

1. The Enhanced 911 Fees imposed by the County Commissions are authorized by W.Va. Code §7-1-3cc.

2. Staff calculates the weighted average of Enhanced 911 Fees during the respecification years (which are the odd years). The weighted average cost of the Enhanced 911 Fees was below the Wireless E-911 Fee in each of those years until 2017.

3. The annual data received by Staff shows that the total number of landline subscribers has trended downward over time.

4. The landline and VoIP service data showing the number of subscribers per county and Enhanced 911 Fees result in a weighted average Enhanced 911 Fee of $3.86 as of March 1, 2019. 2019 Staff Audit of Wireless Enhanced 911 Fees, Attachment A, May 3, 2019.
CONCLUSIONS OF LAW

1. The May 14, 2019 Commission Order contains incorrect information and should be rescinded.

2. W.Va. Code §24-6-6b(c) provides that,

Beginning in the year [1997], and every two years thereafter, the Public Service Commission shall conduct an audit of the wireless enhanced 911 fee and shall recalculate the fee so that it is the weighted average rounded to the nearest penny, as of the first day of March of the respecification year, of all the enhanced 911 fees imposed by the counties which have adopted an enhanced 911 ordinance.

3. If the weighted average of the Enhanced 911 Fees exceeds the statutory minimum $3 per month Wireless E-911 Fee, then the Commission must increase the Wireless E-911 Fee to the weighted average of the Enhanced 911 Fees but not by more than twenty-five percent of the Wireless E-911 Fee at the beginning of the respecification year.

4. If it is necessary for the Commission to respecify the Wireless E-911 Fee, that fee takes effect July 1 of the respecification year. Emergency Telephone Rule 11.1.

5. The statute requires the Commission to recalculate the Wireless E-911 Fee if the weighted average of the Enhanced 911 Fee exceeds the statutory minimum $3 per month Wireless E-911 Fee. W.Va. Code §24-6-6b(c).

6. Because the weighted average of the Enhanced 911 Fee exceeds the statutory minimum $3 per month Wireless E-911 Fee, the Commission must establish a Wireless E-911 Fee of $3.86, in lieu of $3, per subscriber, per month, effective July 1, 2019.

ORDER

IT IS THEREFORE ORDERED that the May 14, 2019 Commission Order in this General Order series is rescinded.

IT IS FURTHER ORDERED that the Wireless E-911 Fee is $3.86 per month, per subscriber, to become effective July 1, 2019.

IT IS FURTHER ORDERED that on entry of this Order, this case shall be removed from the Commission docket of open cases.
IT IS FURTHER ORDERED that the Executive Secretary of the Commission serve a copy of this Order by electronic service on each County Commission and each provider of commercial mobile radio service that has filed an e-service agreement, by United States First Class Mail on each County Commission and each provider of commercial mobile radio service that has not filed an e-service agreement, and on Staff by hand delivery.

RE: General Order 187.50  

W. Va. Code §24-6-6b(c) states: Beginning in the year 1997, and every two years thereafter, the Public Service Commission shall conduct an audit of the wireless enhanced 911 fee and shall recalculate the fee so that it is the weighted average rounded to the nearest penny, as of March 1 of the respecification year, of all of the enhanced 911 fees imposed by the counties which have adopted an enhanced 911 ordinance: Provided, That the wireless enhanced 911 fee may never be increased by more than twenty-five percent of its value at the beginning of the respecification year.

By Statute, 2019 is an audit year for purposes of recalculating the wireless enhanced 911 fee. Counties are allowed, by statute, to impose an enhanced 911 fee upon consumers of local exchange service as well as voice over internet protocol service within their respective counties. The calculation is performed by finding the weighted average of all reported wireline subscribers and the respective County imposed fees as of March 1, 2019.

This year's official audit produced a weighted average for the landline rates of $3.86, which is an increase over the $3.34 rate calculated and ordered by the Commission in 2017. This increase is below the cap of twenty-five percent. The increase from the 2017 calculation is a result of both increases in the E911 fees approved by County Commissions and the continuing decline in the number of landlines. This calculation is based on the wireline count and County imposed landline E911 fees as of March 1, 2019. The calculation is shown on Attachment A.

Additionally, Burl noted that some items he had been working on will be covered under Old and New Business.

Recognition of Guests:

Jeff Wamsley gave an update of the activities of April Make It Shine. He said the first free day at the Transfer Station had 59 customers with 11.89 tons.

J.P. Phillips said he just stopped by say that Mountain State Waste would also be participating in the free day for their customers at Banks District Fire Department.
Old Business:

- **April Make-It-Shine 2019—Billboards, etc.** - Jeff noted that the days for residential customers to clean up their property and dispose of materials at the Transfer Station free of charge would be April 6th for corporation residents and April 13th for county residents with both corporation and county residents on April 27th. There would be no activities on Easter weekend. Also, the Celebration of Recycling at Crossroads Recycling will be held on Friday and Saturday, April 12th and 13th. Burl noted that all the billboard signs were in place.

- **EDDM Brochure Discussion**—Burl gave an update on the progress on the brochure. Since the February meeting, the brochure was designed, printed, assembled, and delivered to the 7 post offices for distribution. Mailing to all 12,300 postal recipients in Upshur County has been completed.

New Business:
