CAROLINA BEACH, NC – The debris removal contractor is working on the FINAL pass of vegetative debris hauling from the right of way. They are currently hauling in the “Active” Zones, as shown on the updated map. To date, 522 truckloads of vegetative waste have been removed which has produced approximately 25,641 cubic yards of material. 70.96 tons of household construction and demolition waste have been removed.

IMPORTANT NOTES:

1. Household and Construction Debris Removal is in progress, as shown on the updated map.
2. Household and Construction Debris removal will be a SINGLE PASS, so we ask that all citizens please work to get their debris to the roadside, if you have not done so already.
3. The Second Pass of vegetative waste removal is under way. This will be the FINAL PASS and should be completed this week. Please take time this weekend to bring all remaining vegetative waste to the roadside for pick up and removal.

Please continue to place your storm debris at the roadside in the following manner:

- **Vegetative Debris** - Limbs, downed trees cut up to manageable lengths
- **Household and Construction Debris** – Water or wind damaged mattresses, furniture, boards, sheetrock, shingles, plywood, carpeting, etc.
- **White Goods** – Damaged refrigerators, air conditioners, appliances etc.

If you have any questions, please contact Town Hall at 910-458-2999.
