

*educate, get informed*

## **IT'S IMPORTANT**

*On Friday, January 10th we will be hosting a fundraiser to drive awareness and raise money to support this cause.*

The American Academy of Pediatrics, professionals within the telecom industry and environmentalist have been warning us about the harmful effects of 5G radiation. It is alarming.

Hinsdale is a test site for 144 - 5G towers. Western Springs is a test site as well. We need to join forces to STOP this rollout to ensure the safety of our community.
