The Paul Henry Thornapple Trail is a joint effort by multiple agencies and trail organizations. When complete, the trail will stretch 42 total miles through three counties. Rather than having a single overall manager, segments of the trail are managed and developed independently, based on the jurisdictions through which it passes. Kent County Parks manages 7.6 miles, from Wing Ave and 60th St to Cherry Valley Ave and 100th St. Together, Kent County Parks and Kentwood and Recreation manage nearly 10 miles of continuous paved trail, from Kalamazoo Ave and 44th to the Village of Caledonia.
