“The CAC and their staff provide a service to the community that is priceless. The CAC plays a vital role in assisting law enforcement with difficult abuse cases involving children. As a police officer we are all too often involved in investigating these cases, which can be difficult for everyone involved. The professional staff of the CAC is able to assist us in developing our criminal cases, while eliminating the need for these victims to tell their stories over and over again. The CAC staff not only helps victims tell their stories but provides a needed support network for victims and their families throughout the long process of prosecution and recovery. As a law enforcement officer I understand and appreciate how difficult these interviews can be and admire the dedication and professionalism that the staff of the CAC exhibit daily. Their efforts not only make the job of law enforcement a little easier, but help to ensure that other children are not abused.” –Mike Fillback
