PUBLIC HEALTH EMERGENCY RESPONSE

Emergencies can happen at any time without advance notice. As this year has shown with its inevitable severe storms, drastic weather changes and emerging diseases. This too was the year that truly showed everyone that a disease in a foreign country can be easily transported to this one. Ebola was that example. Despite media hype and public fears, Ebola was not the big one that we prepared for, but more like the daily work that is done at health departments every day. Every day the health department staff works to stop the spread of disease through known and tested public health interventions that work. Though we certainly are involved in ensuring our partners around the region that the public health community is ready to manage an Ebola case or contact should that occur here.

Something like a highly infectious flu strain that spreads, globally is an example of what we focus on preparing for. Can we communicate should normal systems fail, can we fill the manpower needs for large scale immunization clinics, do we have the laws to isolate and quarantine as needed? Do we have all the equipment and systems in place to carry out our emergency operations? Are the people in our community prepared to care for themselves until help arrives? Those are just examples of what we question and then try to mitigate. We have come a long way in the years since this division was established to be better prepared and to know the partners across the region that we can reach out to help us. Please continue to prepare to take care of your family should an emergency event occur. In the meantime, just know we will be doing all we can to assist in community response and recovery no matter what it is that impacts us.

MADISON COUNTY HEALTH DEPARTMENT

Twentieth Annual Report

December 1, 2013 - November 30, 2014

101 E. Edwardsdale Road
Wood River, IL 62095-1332
www.madisonchd.org
A MESSAGE FROM THE PUBLIC HEALTH ADMINISTRATOR

On behalf of the Madison County Board of Health and Health Advisory Committee, I am pleased to submit to you the 20th Annual Report of the Madison County Health Department for the fiscal year December 1, 2013 through November 30, 2014. This report chronicles the varied health department services provided to our community to promote, protect, and assure conditions for optimal health.

Public health is to assure that people may live healthy lives through community-wide prevention and protection programs. We work with many partners at the local, state, and national level to meet the health needs of our community. The continued collaboration of efforts involving staff, stakeholders, elected officials, and residents is imperative to realize this department’s vision of a “Healthy Madison County.” Thank you for your continued support to improve the health of Madison County.

Sincerely,

Toni M. Corona
Public Health Administrator

Our Vision
Healthy choices, people, and places. Healthy Madison County.

We believe in:
- Being sensitive to cultural factors influencing health
- Encouraging employees to pursue personal and professional growth
- Delivering high-quality services
- Identifying and minimizing health disparities
- Maintaining a qualified work force dedicated to fulfilling their roles
- Developing programs necessary to promote and protect community
- Sustaining partnerships and maintaining community collaborations

ENVIRONMENTAL HEALTH SERVICES DIVISION

FOOD SANITATION PROGRAM

The goal of the Food Sanitation Program is to protect citizens from contracting and transmitting foodborne diseases, and to educate food service operators and consumers about safe food handling practices.

- Routine Inspections: 2764
- Re-Inspections: 526
- Consultations: 658
- Temporary Food Inspections: 368
- Summer Food Program Inspections: 16
- Summer Food Program Re-inspections: 9
- Complaint Investigations: 98
- Foodborne Illness Investigations: 22
- Voluntary Closures: 8
- Media Contacts: 10

PERSONAL HEALTH SERVICES DIVISION

The primary goal of Personal Health Services is health promotion and disease prevention. This is accomplished by programs that utilize primary and secondary prevention efforts. These programs either prevent disease or minimize the impact of disease/environmental insults on a person, family, community or at risk groups.

COMMUNICABLE DISEASE PROGRAM

AIDS: 908
Clamydia: 908
Chlamydia: 908
Gonorrhea: 160
Hepatitis A: 64
Hepatitis B: 63
Hepatitis C: 371
HIV: 58
Bacterial Meningitis: 1
Permits: 46
Syphilis: 8
Total Number of Investigated Reportable Diseases: 1068

IMMUNIZATION PROGRAM

Clients Seen: 2816
Total Immunizations: 6748

HIV Program (Counseling, Testing, Referral, Partner Notification Services):

Clients Serviced: 960
Tested Anonymously: 0
Tested Confidentially: 108

LEAD TESTING AND CASE MANAGEMENT PROGRAM

Blood Lead Tests Reported: 4299
Risk Assessments: 938
Blood Lead Screens: 351
Children Case Managed: 21

TUBERCULOSIS CONTROL PROGRAM

Client Encounters: 396
Mantoux Skin Tests: 229
New Cases of MTD: 20
Chest X-rays: 24
Home Visits forDOT: 110
Patients started on Meds: 7
Lab Tests: 18

GENETIC FOLLOW-UP AND EDUCATION

Genetic Screening Tools Completed: 258
Home Visits: 2
Newborn Screening Follow-up: 24

HEALTH PROMOTION SERVICES DIVISION

The goal of Health Promotion Services is to create, develop, and promote opportunities and skills for healthy lifestyles through education, policy, advocacy, collaboration, and communication. Lifestyle changes are facilitated through the combination of efforts to enhance awareness, change behavior, and by creating environments that support favorable health practices that address physical, mental, and social issues contributing to the behavior.

Health Promotion Services administers initiatives, programs, and services with schools, community organizations, collaborations, citizens, state and regional partners, coalitions, and media. Health Promotion Services collaborates with many county agencies, organizations, and community members. This year the primary health promotion focus has been implementing tobacco prevention and cessation programs and policies; administering, implementing and completing the We Choose Health grant policy initiatives; enacting duties as the Public Information Officer, coordinating the development of a Quality Improvement (QI) Plan and QI Team for MCHD; seeking and writing grants for MCHD; developing, leading, and maintaining Communications for MCHD; working on MCHD Strategic Plan goals; and collaborating and planning to address health priorities in Madison County. For more information, please visit the Health Promotion link on our Health Department website.

- Presentations: 58
- Number of Encounters: 967
- Community/School Events: 31
- Number of Encounters: 3078
- Communications: 140
- Meetings: 539
- Clean Hands Healthy Bodies Program: 3761
- Total Year End Encounters through Direct Service Programs: 7,746
