Madison County
Health Department
To The Citizens of Madison County:

Providing public health services that promote wellness and protect the health and safety of the community is the goal of the Madison County Health Department. This report summarizes the services provided by the Department and the occurrence of specific diseases. In the coming year we will continue our efforts to prevent the spread of disease, protect the community's environment, and to promote the health of children and adults.

Attainment of our goal will be accomplished through coalition building and collaboration with health professionals, health care agencies, schools, local and state office, and most importantly, you, the citizens of Madison County.

We look forward to serving you as we strive to provide the best health protection programs possible.

Sincerely,

Donald R. Brummers
Administrator

MISSION

It is the mission of the Madison County Health Department to provide these programs and activities that are necessary and desirable to assure the conditions in which people can be healthy.

The Department shall carry out its mission through regular and systematic assessments of community needs, policy development based on knowledgeable and scientific principles of health, and assuring these actions by regulations or direct services.

ENVIRONMENTAL HEALTH SERVICES DIVISION

Food Sanitation Program

The goal of the Food Sanitation Program is to protect citizens from contracting and transmitting foodborne diseases, to educate food service operators, and to assure consumers using food service practice.

VISION AND HEARING SCREENING PROGRAM

Number of Children Referred 123
Vision Screens Performed 3000
Hearing Screens Performed 2726
Total Children Referred (Coordinated Testing) 49

HEALTH PROMOTION SERVICES DIVISION

The goal of Health Promotion Services is to educate citizens regarding the positive effects of a healthy lifestyle and to encourage them to adopt lifestyles through changes in behavior. Lifestyle changes are facilitated through the combination of efforts to enhance awareness, change behavior, and change environment that support good health practices. Health Promotion Services administers programs with schools, community organizations, collaborations, citizens, state and regional programs, communities, and media. The primary health promotion focus has been developing and implementing a comprehensive tobacco prevention program and child passenger safety program.
