Fourteenth Annual Report
December 1, 2007
through
November 30, 2008
To the Citizens of Madison County:

I am pleased to submit to you the 2006 Annual Report of the Madison County Health Department. You will note growth in program activities and services provided by our dedicated staff. Collaborations and partnerships associated with the Madison County health priorities of Cardiovascular Health, Sexual Risk Behaviors, Addictive Behaviors, Cancer and Unintentional/Motor-Vehicle Injury remained active and productive this past year.

This department is committed to providing ongoing basic public health protection and disease prevention services to the citizens of Madison County, based on the core functions of assessment, policy development and assurance that are carried out in ten essential public health services.

With gratitude and appreciation to the many stakeholders of public health within Madison County - we look forward to another successful year of providing quality health department programs and services.

Sincerely,

Toni Corona, B.S., L.E.H.P.
Public Health Administrator

MISSION STATEMENT

"It is the mission of the Madison County Health Department to maximize community health through education, partnership, and preventative services."

ENVIRONMENTAL HEALTH SERVICES DIVISION

Food Sanitation Program

The goal of the Food Sanitation Program is to protect citizens from contracting and transmitting foodborne diseases, and to educate food service operators and consumers about safe food handling practices.

VISION AND HEARING SCREENING PROGRAM:

Number of Day Care/Schools Served .................. 74
Vision Screens Performed ............................... 2896

Total Children Refered (Confidential Testing) ...... 51

HEALTH PROMOTION SERVICES DIVISION

The goal of Health Promotion Services is to educate citizens about the positive effects of a healthy lifestyle and to encourage them to alter lifestyles through changes. Number of Day Care Changes are facilitated through the combination of efforts to enhance awareness, change behavior, and by creating environments that support favorable health practices. These lifestyle changes often require addressing physical, mental, and social issues contributing to the behavior.

Health Promotion Services administers programs with schools, community organizations, collaborations, citizens, state and regional programs, coalitions, and media. Health Promotion collaborates with many county agencies, organizations, and community members to prepare and offer education. This year the primary health promotion focus has been implementing a tobacco prevention and cessation program, assisting with youth alcohol prevention initiatives and safety programs,
